The Tribune.

FRIDAY, APRIL 2, 1886.

We have received a copy of the Report of the Minister of Education for the year 1885, with the statistics of 1884. From it we glean a few facts which may be of interest to some, at least, of the readers of *The Tribune*. The school population, embracing those from five to 16 years of age, for the year 1884 was 471,257, an actual decrease of 30,963 as compared with 1876. The total number of pupils registered in 1884 was 466,917, while in 1876 it was 490,537. No attempt is made to account for this decline in numbers, which is remarkable when we remember that the population of the province has steadily increased during that period.

Coming to the attendance of pupils the Report states that 81 per cent. of the pupils registered attend school less than 20 days. In 1876 the number attending less than 20 days was nearly 91 per cent.; 161 per cent. attended school less than 50 days; 231,859 pupils attended school less than 100 days or less than six months in the year. The Minister regrets such great irregularity, and states that it is quite clear that unless the attendance of the pupils is secured, the expenditure upon school buildings and the training of teachers will be comparatively unproductive. The great problem is how to increase the average attendance. The Minister draws the attention of school boards to the clauses of the Act requiring parents to cause children from seven to thirteen years of age to attend a public school for one hundred days in each year, and especially to the clause inflicting penalties on those who neglect to comply with the law on this point. We fear that all this will be of no avail. So long as the government lacks the backbone to pass a compulsory law, so long must we expect the existence of the evils of which the Minister complains.

Since 1876 the number of public school teachers has increased from 6,183 to 7,083. It is satisfactory to find from the Report that many entering the profession are disposed to seek a higher standard of literary culture, and that there is an increased demand on the part of boards of trustees for such teachers. The Minister regrets, however, a tendency on the part of some teachers to remain satisfied with any qualification which entitles them to conduct a public school.

There has been a small increase in the salaries paid to teachers. In 1876 the average salary paid to male teachers was \$385 and to female teachers \$260. In 1884 they had risen to \$426 and \$279. It is unnecessary to state that these salaries are much less than those paid to teachers in the United States. The Minister urges on trustees the duty of paying teachers weekly, monthly, or at least quarterly, and pertinently asks why there should be a discrepancy between the salaries paid females as compared with males.

The total receipts for school purposes during the year 1884 amounted to \$3,723,138, of which \$276,084 was the legislative grant; \$780,433, Clergy Reserve Fund and other sources; and \$2,675,621, municipal school grants and assessments. The expenditure during the same year was \$3,280,802, an increase of \$274,406 over 1876. The average cost per pupil on total attendance was \$7.92 and on the average attendance, \$14.79.

The Report states that in 1884 there were 207 separate schools, with 427 teachers and 27,463 pupils. The total receipts for these schools were \$190,454, and the expenditure \$176,477. The average cost per pupil in these schools was \$6.42.

For the same year the statistics show 100 high schools and collegiate institutes with 335 teachers and 12,737 pupils. The total expenditure on these schools was \$383,426. The average cost per pupil was \$30.26.

An old prophecy, attributed to Nostradamus, says:—

Quand Georges le crucifiera,
Quand Marc le maciste,
Quand Jean le portera,
Le fin du monde arrivera.

All these conditions are fulfilled in this year of 1886. Good Friday falls on St. George's day, Easter on St. Mark's day, and Corpus Christi on St. John's day.

This Education Report shows that in the County of Hastings, exclusive of Belleville and Trenton there are 10,387 children between 5 and 16 years of age. There were in attendance at the schools on the 26th of May under 5 years of age; 10,163 between 5 and 21; 11 over 21 years, making a total of 10,149 pupils at these schools. Of these 5,254 were boys and 4,886 were girls. 1,206 of the pupils attended less than 20 days during the year; 1,166 from 20 to 50 days; 2,339 from 51 to 100 days; 2,328 from 101 to 150 days; 1,782 from 151 to 200 days, and 366 only from 201 days to the whole school year. 3,992 children between 7 and 13 years of age did not attend any school for 110 days during the year. 333 children between 7 and 13 years of age did not attend any school during the year. The average attendance was 4,227, or 42 per cent. of the whole. Belleville has a school population of 2,227, and had 2,328 pupils at the schools with an average attendance of 1,278, or 55 per cent. Trenton has 1,013 of a school population, the attendance being 908, the average attendance being 479, or 49 per cent.

COMMUNICATIONS. CHURCH CHOIRS.

To the Editor of the Tribune.

DEAR SIR—Have the members of a choir any relations to the church? This question was asked by a visitor to one of our churches a few weeks ago? He repeated the question: have the young people who sing sweet notes of praise in the words of the love which they utter, are they made fit for salvation by being members of the choir? Having stated several of the churches in your village I would also repeat the question.

The minister has listened to the choir with proper admiration, while they render their selection. The people have been held in a state of rapture with their sweet singing. The congregation resume their seats; the preacher announces his text. Every eye is set upon the minister. Every word of truth is listened to with profound respect and admiration. Now what is the condition of the choir all this time? I need not reply.

Is it not too, that young people so gifted with God's blessing should so frequently forget themselves? They assist in one portion of the service; then they annoy the whole congregation, trouble their pastor, and many who might have received good instruction are driven away in disgust. Were the members of a choir to look down into a congregation and see half a dozen folks laughing, talking, scribbling, turning over the leaves of a book and annoying their neighbors, what would they think? And yet such is the scene too frequently witnessed by those who look at the members of our choirs during divine service now-a-days. What is more displeasing to the humble worshipper? The question repeats itself and deserves explanation. Have the members of the choir any relation to the church? OBSERVER.

THE CHIEF NECESSITY OF ONTARIO

To the Editor of the Tribune.

SIR,—The chief necessity of Ontario is really the procurement of something to replace our fast vanishing shelter. On all sides, our woods—the small remains of our great forests—are being cut down, or from being allowed to range in them, are become so destitute of young trees, and so beaten into a hard turf instead of a proper forest bed, that they are falling into decay and blowing down. If cattle were kept out when the forest is yet good it would often stay so, and remain valuable for shelter and fuel perpetually. But we cannot, in this country, preserve a forest if we make it a cattle range. It is best to let the cattle have some bush to themselves, but not the bush the proprietor wishes to keep as a bush.

But as this has very largely not been attended to, it is the next best thing to look about for a substitute. How necessary it is, a short journey through Ontario will tell any one. I lately visited a district in which, thirty years ago, I had been one of the first settlers. It had been a tall forest far as the eye could observe, and as much of it covered the side of a great mountain, a vast range was visible. I travelled through twenty miles of forest—the forest was gone—there was a bleak and barren expanse, here and there broken by a small wood or scrubby line of underbrush, or low thick covering a piece of damp land; but all else reminded one of the steppes of Russia. The question readily occurred to my mind: "What will Ontario be if she do not better herself in tree planting?"

What I wish to recommend to my readers is planting of lines of trees, not deciduous, for those are of no use in winter when needed most, but evergreens, of which I have seen large numbers growing uselessly, here and there, in woods or near their borders, just the thing for transplanting. If these, where they can be had, or obtained from nurseries, which should not cost much, as in the States they are sold, four to six inches long, at three to six dollars the thousand, larger trees of course cost more, and planted out there yearly by millions—if these or such were planted in lines along the exposed sides of farms, we should again have a sheltered country, and a prospect of growing much more grain to the acre than we are likely to obtain shortly, if we do not give shelter to the fields. I lately had about three hundred letters from different parts of America and Canada, giving universal testimony that where fields have been protected, especially in winter, by belts of trees or portions of forests, the yield of crops has often been double.

I trust we shall soon see in Ontario, millions of acres planted in shelter belts yearly. No labor on the farm promises so great a return, and the labour is not great.

Yours, &c.,

R. W. PHIPPS.

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with some faint smudges and discoloration, characteristic of old paper. The right edge of the page is dark, suggesting the binding or the edge of the book. There is no text or other markings on the page.

The Deseronto Cricket Club is organizing for the summer's campaign.

Mr. S. B. BRACKMAN gave his thumb a bad cut the other day while working in his shop.

Mr. DINGMAN, Inspector of Indian Agencies, was in town last week on official business.

Services are held in St. Mark's Church every Wednesday and Friday evening during Lent at 7:30 p. m.

The Sophiasburg Council refuse to grant a ferry license to any of the applicants who desire that privilege.

The omnipresent nursery stock peddler is again on his rounds and took in the town on Friday last.

Commercial men are as thick in Deseronto as Canada thistles on the average farm in spring time.

Master George McGaughey was thrown from his bicycle last Saturday and damaged himself considerably though not seriously.

Mr. Dafe, Assessor for Richmond Township, was in town last Wednesday assessing those that have property in his jurisdiction.

The W. H. W. & K. & P. R. R. Company have just concluded a contract for 7,000 tons of soft coal with the Rathbun Company.

On Arbor day of last year 1270 trees were planted in the school grounds of Hastings; 250 in Lennox and Addington; and 20 in Prince Edward. Arbor day is to be observed annually.

On Thursday Bro. had their ferry boat out on Tuesday for a trial trip. They are cutting a passage through the ice and expect to commence regular trips in a few days.

The Ottawa Free Press, one of the best edited journals of Canada, comes to hand much enlarged and improved. We congratulate it on this evidence of enterprise and success.

All Gents in want of Boots should call at the BIG STORE and see the Polished Call Boots at \$2.75, which can't be beaten; also Ladies' Polished Call Button at \$1.75.

The social held last Friday evening at the residence of Mr. Wm. Stoddard, under the auspices of the L. M. A. of the Church of the Redeemer, drew a large assembly, the house being packed with over one hundred merry socialists who enjoyed their selves immensely.

Two comets are now rapidly approaching the earth at the rate of thousands of miles a day. As a result timid people are becoming frightened, whereupon an exchange remarks: "If you would have a clear conscience when the great crash comes, pay your arrears to the printer at once." Noble sentiment that.

The license inspectors of Hastings are at present on the war path and many parties have been fined of late for infringing the license act. At the Belleville police court on Tuesday, Inspector Shillish charged Wm. and Jas. Golden and Wm. Gidson, with drinking liquor at Wm. Goodfellow's hotel, Tyndinaga, on Sunday 14th inst. Each pleaded guilty and was fined \$2 and costs.

A LOAN of logs was lately drawn by a span of horses belonging to Messrs. Lord & Hurman, at Wm. Sourley's slanty, on the Mississippi river near Deseronto. The Ottawa paper, containing 32 standards and 23 parts, and is supposed to be the largest load of logs ever hauled by one team on the Upper Ottawa. The load was measured by John O'Connor, cutter.

Business is booming on the B. Q. R. way. On Saturday Mr. Coughlin, the detestable conductor, brought in eleven loaded cars and the coach, being the longest train seen on this line. Part of the train was crushed ahead of the engine. On Monday the siding at the Junction were so full of cars that a special had to bring in some of those to relieve the pressure.

Seventy half-breeds, formerly of Batavia, thirty three of whom took part in the rebellion, and who are now residing in the Pontiac mountain country, across the border, have been asked by the Government to return and be pardoned. They say they will not do so, unless given patents of their lands in exchange for their blood.

Ten officers of the Deseronto Flour Mills was on Wednesday afternoon the scene of an unusual event for such a place. This was the administration of the holy ordinance of baptism, with wife and family, who had been visiting her mother, Mrs. Woodcock, of this place, was at the east end station waiting for the train. On which she and two children were to proceed to their home in Dryden, Michigan. Rev. R. J. Craig, pastor of the Church of the Redeemer, opening to be present. Mrs. Craig spoke to him regretting that the children, twins by the way, were not baptized. "Why not," said the clergyman, "they are baptized now." Why not, and immediately preparations were made by the members of the church to administer the simple and solemn service was performed. In a few minutes the train came along, and the chubby twins and their happy mother went to their way rejoicing. In this connection we learn that Mr. Craig, the father of the children, was a principal builder of the Flour Mills, and also assisted two years ago at its reconstruction.

THE TRIBUNE until the end of the year for 75 cents.

MR. FRANK BARNHART is getting on rapidly with the erection of his new house. The Bay of Quinte Conference of the Methodist Church will meet this year at Picton.

One genuine New York Singer Sewing Machine for sale on easy terms at THE BIG STORE.

Yesterday being All Fool's Day was loyally observed by the ingenious youth of Deseronto.

DALTON has received the largest consignment of handsome baby and doll carriages ever seen in this district.

Under the genial influence of the warm rain of Wednesday worms crept out of their winter retreats and were seen crawling over the sidewalks.

The ferry boat belonging to the Rathbun Bros. was carried away by the wind and ice on Wednesday night and landed at the log pond above the Big Mill.

Mr. W. C. B. Rathbun having purchased May Farm from the Rathbun Company entered on possession of his fine property yesterday.

Mr. John Gough, of the Deseronto Machine Shops, has fitted up a neat engine for the chemical works. It runs with a wonderfully economical consumption of fuel.

Some rascals recently stole some choice hens from Mr. Widdington's poultry yard, no light loss with Easter rapidly approaching.

A GOLD RING with jewels was lost about a week ago, probably on Main-street. The finder will oblige by leaving same at the Towns Office.

Druck shooting has commenced. Dr. Xones got quite a bag full last Friday, including among others a fine specimen of the mallard or lake green-head.

The case of Depland Ellis charged with giving intoxicating liquor to Indians came before Commissioner McCullough Wednesday. There being no evidence the defendant was dismissed with a caution.

MR. MURPHY SELL, who lost his arm in the Cedar Mill, is regaining strength. As a result of the bruises he sustained at the time of the accident an abscess has formed on his side.

Mr. P. O'Connor is calumniously embellishing and generally renovating the O'Connor House for the coming season. He is determined to leave no stone unturned to maintain the well-earned reputation of that fine house.

"OBSERVER" in his communication addresses himself to a question which is at the present time creating much inquiry in the press of Canada and the United States. Its solution is confessedly more difficult than the Riddle of Irish question.

MR. VANDERVOORT, flour miller expert of Buffalo, was in town last week, adding some new appliances and latest improvements to the Deseronto Flour Mill. The mill was shut down for a few days this week to enable some repairs to be made to the engine.

THE vast deposits of refuse stuff at the trestle dock have been all consumed. It is proposed to erect a large building which will enclose the whole dock, railway track and all, and thus protect the refuse from the rain and snow.

PAOR BOX. BROWN, by means of printer's ink in which he has implicit faith, fairly shook up Deseronto, as he expressed it, for a few days. His performance being of a high, moral character, took well and on Monday evening he had a full house. A rich profusion of silver cups and other prizes were distributed among the audience.

LOCAL TRAIN.—For the benefit of the Travelling Public and to afford accommodation to the people of Deseronto, a night train leaves the R. K. Depot every morning at 7:45 for Kingston. Parties can go to Pils, Kingston or Napanee, and be same day having only one change in passing.

Low rates of Fare. Kingston and return, \$2.20. Napanee and return, 50 cents.

A temperature of 56 degrees, a heavy rain, and high winds from the northwest made a great impression on the ice in the bay on Wednesday. On Wednesday night the wind shifted to the east, and the ice yesterday kept smashing up the ice in fine style. There is now open water for a considerable distance above the town, and there is also a good deal of ice down the bay.

With anything like mild weather the ice must soon clear out altogether. It took its departure last year on the 25th of April.

The committee appointed by the County Council to enquire into the conduct of Mr. Thos. Wills, County Treasurer, met at Belleville on Tuesday. W. R. Aylworth, Esq., occupied the chair, and the other members of the committee, Messrs. Robert Gordon and A. N. Vermilyea were present.

Mr. Harford Ashley submitted a series of charges, accusing Mr. Wills of disobedience of the resolutions of the County Council, of making public what should be private, and of acting generally to the prejudice of the county. Mr. Hanley, Reeve of Tyndinaga, also charged Mr. Wills with selling lands in Tyndinaga at a loss to the township, and of publishing landfills on the day of the municipal election to influence the election. The committee adjourned to meet on April 20th inst. Whatever truth may be in the charges the result of their investigation will prove beneficial. Canadian Government and municipal officials too often forget that they are servants of the people.

THERE was a sheriff's sale on Robert Lloyd's farm, in Tyndinaga, on Friday. Lloyd was an industrious farmer and lived there with wife and family of six children. But a few years ago he introduced into the household an English emigrant girl, for whom Lloyd appeared to have a keen love. This gave cause for jealousy and Lloyd's wife remonstrated, but to no effect. He had become infatuated with the servant girl, and the local master of the neighborhood. Mrs. Lloyd instituted a suit for alimony, claiming adultery and desertion. The local master awarded the plaintiff \$150 a year for her support. Lloyd paid no attention to the decision until his wife died. He took his paragon and his child on Monday and left for the States by way of Kingston, leaving his wife's small children alone in the house for two days and nights before the neighbors found them. A principal builder of the Flour Mills, and also assisted two years ago at its reconstruction.

MR. GEORGE SMITH is rushing the foundation of the new Goodmury block.

Householders are already busy clearing out back yards and porches generally.

Twenty-eight cents a pound was asked for butter on the market yesterday.

Two children, Horbelle Ball and Harry Roberts, of Deseronto, are missing, supposed to have been drowned.

Mr. John Marrigan, Sr. offers for sale a house situated on Main-st. west at a very cheap price. Headquarters for cheap goods.

The name of Rathbun Station post-office, North Hastings, has been changed to Ormally.

Dr. YOVES has recently successfully removed tumours from two ladies, one of Deseronto and the other of Prince Edward.

The post-office of Rosemore, Prince Edward, has been re-opened with Peter Fair as postmaster.

A second hand "Singer" Sewing Machine in good condition, to be sold cheap as THE BIG STORE.

In the Commons on Tuesday, Mr. John White, M. P., introduced a bill respecting the Central Ontario Railway.

A wheel on the passenger coach of the Bay of Quinte Railway was broken yesterday morning.

The Sacrament of the Lord's Supper will be dispensed in the Church of the Redeemer next morning at 10 o'clock. Free services on Friday and Saturday evenings.

MR. C. GOODMURY has opened out business in the shop north of William's drug store, and displays a stock of boots, shoes and ready made clothing.

W. W. W. & S. P. have made the Smith Block one of the most stirring business resorts in the Head-quarters for cheap, fresh and good groceries.

BOARDER—"I'm tired of eating cakes three times a day." LANDLADY—"I should think you would, be no one can carry the load you do without eating cakes."

REV. D. O. CROSSLEY will preach in the Methodist Church on Sabbath evening next on the subject, "Dancing." "It is right for Christians to dance."

MR. JOHN MILNE, of the Machine Shop, had the top of one of his fingers ground off the other day in the cogs of one of the machines.

The pernicious habit of forestalling the market is not confined to Deseronto. It seems it obtains also in Belleville and residents of that city are thus compelled to pay high prices for produce.

J. JONES, Esq., Inspector for South Hastings, made a thorough examination of the various departments of our public schools last week. He expressed himself very much pleased with the work which has been done this session.

The libel suit brought by Mr. Robert Girvin, of Stella, against Messrs. Templeton & Beaman, of the Napanee Beaver, was before the court on Tuesday last week. The jury returned a unanimous verdict for defendants with costs. We congratulate the respondents on the result.

There is nothing like taking time by the forelock and the Rathbun Company Band have already arranged to open the excursion season of 1886 by a grand moonlight sail on the shores of the Bay of Quinte, to assume the elegant steamer Queen which is engaged for the occasion.

That hacking cough can be completely cured by using West's Cough Syrup. It is the best remedy for the coughs of Coughs, Colds, Consumption, Hoarseness, Influenza, Bronchitis, Asthma and all Lung and Throat complaints. Sold by W. G. Edgar, Druggist. Price 25, 50cts and \$1.00 per bottle.

When a cold or other cause checks the secretory organs, their natural healthy action should be restored by the use of Ayer's Catarrh Remedy. It is a powerful remedy removed from the system. Much suffering may be prevented by thus correcting those slight derangements which, otherwise, develop into settled disease.

FOR 25cts the Weekly Globe will be sent to any address in Canada, Great Britain or the United States for three months. For \$1.25 the Evening Globe will be sent for three months, and the Daily Globe for one year. For \$2.25 the Daily Globe will be sent for three months, and in addition the Weekly for the balance of the year. Subscriptions received at this, The Tribune Office.

The Minister of Finance made his Budget speech on Tuesday afternoon. The tariff changes from which an increased revenue is expected, are in the shape of a change from ad valorem to specific duties, and increase and readjustment of the taxes on sugar and some other articles. He announced that the C. P. R. Company would repay twenty millions of the loan of 1884, giving land security for the balance, ten millions.

MR. CHAS. DOUGHERTY, of the Central Office, having received an appointment to a position in the Rathbun Company Agency at Ottawa, left for the capital on Monday morning. As he was a general favorite with all classes of the community there are many expressions of regret at his departure. Calamity has befallen the Mechanics' Institute, Dramatic Association, Cricket Club and other societies have lost a good member and generous patron. THE TRIBUNE joins with a host of well wishers in hoping that his career in Ottawa may be both pleasant and successful.

Buy View Farm Potatoes best in the market, or for table use, leave your orders at the BIG STORE and they will be promptly filled.

ADVICE TO MOTHERS.—Are you disturbed at night and broken of your rest by a sick child, screaming and crying with pain of cutting teeth? If so send at once and get a bottle of "Mrs. Winslow's Soothing Syrup" for children teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers; there is no mistake about it. It cures Dysentery and Diarrhoea, regulates the Stomach and Bowels, cures Wind Colic, softens the Gums, reduces inflammation, and gives tone and strength to the whole system. "Mrs. Winslow's Soothing Syrup" for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

CHEAP pass books and blank books at the TRIBUNE office.

Rev. J. A. Anderson has fully recovered from his recent illness.

A Bargain in Black French Cashmere at the BIG STORE, measures 42 inches wide and only 35 cts. the yard.

MR. GEORGE CANOON varied the monotony of his life the other day by having one of his hands badly cut. He was only laid up a few hours for repairs.

Just to hand Gents White Over Shirts made expressly for the BIG STORE, 75 cts. and \$1.00 each, these goods will astonish the buyers.

Ayer's Sarsaparilla, the first blood medicine to prove a real success, still holds the first place in public estimation, both at home and abroad. Its miraculous cures, and immense sales, show this.

HASTINGS expended \$67,769 on Public Schools the average cost per pupil being \$8.68, or on average attendance \$16.03. Belleville expended \$18,464, or \$7.93 per pupil. Trenton \$5,564, or \$5.81 per pupil.

The Presbyterian Sunday School concert came off on Wednesday night last, notwithstanding the miserable weather there was a good attendance of the children and their friends. The Superintendent presided and the factor donated an address. A good programme was submitted, the children singing their hymns and reciting their little pieces.

The average salaries paid to teachers of public schools in Hastings are, males \$395; females \$271. The former are a little below and the latter above the average. Hastings is exceeded in the matter of the best salaries, Lennox and Addington give \$361 to males and \$235 to females; Prince Edward \$440 and \$280. As a general thing the western counties pay the best salaries.

THE shipyard presents a busy appearance these days. There is a very large force of men employed putting the finishing touches on the different vessels. A general thing is rapidly approaching completion and will present an elegant appearance. The new feathering wheels are being added and other improvements. It is hoped that the opening of navigation will find all the vessels ready for their routes.

INTELLIGENCE was received yesterday that the market is not confined to Deseronto. The first started about 4 o'clock in the morning and made rapid progress. The loss to the Company was very great at the time of the best equipped news paper offices on the continent. The management, who will have universal sympathy, will not doubt prove equal to the emergency and prevent any break in the publication of the great journal.

The recent rains have swollen Sucker Creek to a great extent and it is now a raging river. On Wednesday the culvert this creek crossed to Marysville road was carried away and almost caused a catastrophe.

It seems that Mrs. O'Rourke, with her son and a little boy, had been taken out to Marysville road, returning home in the evening. Approaching the culvert they saw water, but thought it was only an overflow and drove ahead into the stream. Horse and buggy disappeared under water and all the occupants were soon struggling for life. The little boy was rescued first, the young man swam to shore, and Mrs. O'Rourke clung to the top of the buggy. Their cries were heard by Walter and Charles, Brent who lives near by, who, with his assistance, and only by great exertions managed to rescue the poor woman from her perilous position. The horse, which it is said was all this time under water, also with much labor rescued, but the buggy, robes, &c., which as well as the horse were the property of Mr. J. Marrigan, Jr., were swept away and sunk in the rushing waters of the turbulent stream.

"A merchant alone in his desolate store Sang 'Willow, tit-willow, tit-willow' I said to him, 'Why are you pining the floor.' Singing 'Willow, tit-willow, tit-willow'!"

"Alas!" he said when he smothered his cries, "I thought it was nonsense to advertise, and now I've no customers at all. Oh, Willow tit-willow, tit-willow!"

FRIDAY, APRIL 9, 1886.

MR. GLADSTONE yesterday presented his proposed legislation on Irish matters to the British parliament. No English statesman has ever before been called on to face such a great problem fraught with such momentous consequences. Throughout the civilized world his measure is awaited with keenest interest. No wonder that on the day approached for presentation a large section of his cabinet became unnerved and tendered their resignations. The old veteran of seventy-five years alone goes into the struggle with undaunted courage. It remains to be seen whether he can by his unrivalled powers of argument and oratory so influence the house as to carry the measure. If he wins with all the powerful forces arrayed against him, it will be the most signal personal triumph in the annals of parliamentary government. The cable reports would indicate that defeat is certain, and that the Great Chief even courts defeat. But granting a temporary defeat what will follow? Who could succeed where Gladstone failed? No permanent alliance could be made between any of the groups of his opponents. Though his present prospects appear to be dark, there is little doubt that Gladstone will succeed in gaining at last, for Ireland that home rule to which she is entitled and which she will not be denied.

COMMUNICATIONS.

CHURCH CHOIRS.

To the Editor of the Tribune.

SIR,—Have the members of a choir any relation to the Church, is a question asked by a worthy correspondent in your last issue. It is a question worthy of consideration; and to speak plainly I say they have a very decided relation. The members of a choir have to make many sacrifices. They devote an evening each week to practice, must be on hand for all social, tea or entertainment, and that generally at their own expense. They must be at each service on Sunday, and if not on time, get a black look from organist or clergyman. They are treated like machinery (very few people pray for the choir). If the Soprano makes a little mistake everybody laughs; if the Tenor sings flat, they remark, that fellow has been drinking soda-water and should go west; and if the Bass—well, the people say, anybody can sing bass. The first remark you hear while leaving church is, "Well the choir only sang pretty well to-day." When a member is absent, the question is general: "where is so-and-so to-day? Why do they stay away on Sunday? They then acknowledge that the choir have some relation to the church. I will admit that now and then you will see a little out of the way; but, Sir, Editor, let me say there is more sympathy with the services of the church in the choir than exists among the cold, stiff, glossy occupants of the pews. Glance around; they stalk into church, give a stiff bow, kneel in prayer, during singing look on (no music in their souls) listen to the preacher, rise up, go out, and maybe say a nice day and good sermon. Some make the church edifice a place for conversation, you hear their loud remarks in the porch as they enter. Only last Sunday I observed conduct on the part of some ladies (!) not fit for a theatre. What relation do these bear to the church? Sometimes there is talking in the choir. I don't justify that, but it is about changes in hymns for the convenience of the preacher. I think our choirs deserve credit, and clergymen and church members should encourage and aid them more than they do.

MENTOR.

TYENDINAGA RESERVE.

AGENTS REPORT.

The following Report of the Tyendinaga Reserve appears in the last Annual Report of the Department of the Minister of the Interior:—
SIR,—I have the honor to transmit, for your information, the following report, together with the tabular statement, for the year ended the 30th June, 1885. This band now numbers 976, being an increase of eleven during the year. There were twenty-four births and thirteen deaths. The four schools, on the reserve are fairly attended, and the children are making fair progress in their studies. The usual supply of blankets has been distributed among the aged and infirm Indians. The health of the band is very satisfactory. The health of the Indians is making good progress in farming and dairying. Since my last report the Indian Church has repaired the Indian Council House and added a bell-tower to All Saints Church, at a cost of about one thousand seven hundred dollars. I am pleased to be able to report that the sale of intoxicants to Indians has been greatly suppressed, and that it is now an unusual thing to see an Indian intoxicated. I can safely say that this is owing to the diligence of Mr. Constance Gwynn, who was recently appointed for that purpose. The amount distributed during the year was about (\$5,442.42) five thousand, four hundred and forty-two dollars and forty-two cents.

MATTHEW HILL.

Indian Agent.

Nothing so strengthens and tones up the lungs like West's Cough Syrup. It is the most widely known remedy for the positive cure of consumption, Bronchitis, Coughs, Colds, Influenza, Hoarseness, Whooping Cough and all Throat and Lung Disorders. Price 25c., 50c., and \$1.00 per bottle. Sold by W. G. Egar, Druggist.

GREYNA.

From Our Own Correspondent.

The storm on Tuesday was the worst of the season, our farmers were beginning to think of the spring work, but this coming so close on the rain of last week sets them thinking. Our bridges throughout the municipality have been damaged considerably. The only one that stood the strain was the ice bridge to Deseronto; that one is all right, while the river ice is breaking up almost to the Big Bend.

Our sick in this locality are getting on favorably; we hope to see them all around again soon.

Our school has started again under the able management of Miss Jordan, of Richmond. She has the right method of teaching for our school as shown by the pupils going to work in earnest.

Mr. J. Rowson and family are preparing to leave this place for the old homestead in Tilsonburg, his native place. We are very sorry to lose them as they will be greatly missed both in the church circle and the neighborhood. May our best wishes follow them.

Mr. C. Hough has quit the meat business and gone to splitting rails. He is going in for repairs.

MACDONALD.

From Our Own Correspondent.

News scarce, roads bad, times dull, quite a young winter, snow banks in some places as high as the fences.

On Monday last Mr. Nathan Miller crossed the ice with a horse and cutter; it was a dangerous drive.

Death has entered our midst for the first time this winter taking Miss Mary Joyce as its victim. She was buried on Sunday in the Bellamy cemetery.

Mr. Harvey Walters, of Belleville is the guest of Mr. Nicholas Gault for a few weeks getting the fresh air of the country. Mr. John Gault is also visiting his brother during the sugar making.

Mr. Gault has made a lot of the "sweet" already this spring, 25 gallons of syrup and 200 pounds of sugar.

Mr. Andy Birch has gone to join his open troupe in Cincinnati.

The farmers have all got up nice wood piles for the summer's use.

SHANNONVILLE.

(From Our Own Correspondent.)

Mr. J. S. Kerr has again met with quite a loss, on Wednesday night of last week burglars entered the Masonic Hall which he is at present occupying as a store and carried off from a large quantity of goods, consisting of three pieces of cotton, tea, tobacco about fifty pairs of boots and other articles amounting to nearly \$300. The loss will be more severely felt, he having recently suffered heavily by fire.

The freshest a few days ago did considerable damage to the saw mill owned by Mr. Wallbridge, it was feared at one time that it would be completely swept away, the water has now subsided and fears of further damage are somewhat allayed.

We regret to learn that our young friend, Mr. R. A. VanLaven, intends leaving here about the middle of May to try his fortune elsewhere. He has been the first man to be expelled about that time. Report says he will be succeeded by Mr. Wm. Mayell, formerly of this place.

We learn that several weddings are spoken of as being on the tapis, would very much like to know who the contracting parties are.

We fail to understand the meaning of your Melrose correspondence in reference to the "Literary Society" keeping the young gentlemen from Shannonville, as some of them at least are seen here about as frequently as ever.

HALL'S Vegetable Hair Renewer

Acts directly on the scalp and on the roots of the hair. It prevents falling of the hair, dandruff, or any disease of the scalp, restores gray hair to its original color, and where the glands are not decayed, will cause new hair by the high wind made. "A diseased scalp caused my hair to fall out. After using a number of preparations, without avail, I tried Hall's Hair Renewer, which caused a new and vigorous growth."—E. J. Adams, St. Paul, Minn.

Sold by all Dealers in Medicine.

Buckingham's Dye

FOR THE WHISKERS

Will color the beard brown or black, as may be desired. It is in one preparation, cheap, safe, convenient to use, and effectual, giving to the whiskers or mustache a permanent and handsome color. The color produced is natural and uniform, cannot be rubbed or washed off, and always gives satisfaction. "I have been using your Whisker Dye for two years, and would not have any other."—B. F. DISASTROUS FIRE IN BELLEVILLE.

Belleville, April 6.—A serious fire occurred this morning in the Cronk Block, a brick building on the corner of Front and Hotel streets, in which were situated the stores of A. L. Geen, druggist; J. W. Brown, merchant tailor, and John Gilbert, flour and feed. The upper story of the part of the building was occupied by Miss Page, John St. Jean, and W. H. Ockerman, as a dwelling. The wind was blowing a gale and the fire, which originated over Geen's drug store, spread with such rapidity that but little could be saved. The firemen turned out promptly, but it took three hours of hard work before the fire was got under control. The block, which was owned by Jacob Cronk, was completely gutted, loss \$10,000; insured for \$6,000. The loss of the other parties will amount to about \$10,000, of which there is no insurance. The walls of the Cronk building were blown off during the day, doing some damage to the adjoining block, which is the property of Mr. J. C. Jamieson. About one o'clock this afternoon the owners of the fire blazed up again, and did some further damage to Mr. Jamieson's building. The fire engines had to be called out to extinguish the flame.

INTERESTING ITEMS.

The admiral of Lord Isidore (Sir Staff Northcote) collected £12,000, and with it, he presented him with a silver-plated, four dessert stands, and two candles.

After chasing a fox all day a party of eleven hunters from West Rutland, Mass., brought up at a hole. The dogs howled, and the hunters dug for an hour, and at last unearthed a woodcock.

A clerk in Salem, Mass., bought two dollar tickets in the Lynn Grand Army lottery the other day, and he was paid a prize of \$1,000 in payment of a dollar he owed him. This ticket drew a \$1,000 United States bond.

The only American statesman whose names are familiar to the majority of English people are Washington, Lincoln, Garfield, and Grant. Very few, comparatively, knew who Gen. Lee was, and speaking generally, American history is never read.

Five years ago the two daughters of Paul Geeser of Sheboygan, Wis., married and moved to Milwaukee. The other day Mr. Geeser asked the Milwaukee police to help him find his girls. He said that they could forget the names of their husbands, and had been looking in vain for them for two weeks.

M. L. La Count of Clayton, Ga., after serving a sentence in the jail at Atlanta for violating the revenue laws, returned home to his father's house. He was met by his young wife in attempting to lift him from the bed to a chair, ruptured a blood vessel and died, leaving him in his child two years and another was spending some time in jail.

Mr. Rufus Ellow of Cranberry Plains, Conn., being troubled by ten thieves, set a big steel trap before the door of his house and co-erced it with straw. After several days had passed and no thing had been caught, Mr. Ellow endeavored to rearrange the straw over the trap. It caught him by the nose and he was taken a prisoner until neighbors came to his aid.

Maine newspapers report that game has been very abundant this winter in the well-settled central district of that State. A card of thirty-five dollars was recently sent making its way toward Mount Katahdin from where upper slopes those animals find a morsel of which they are very fond.

A tipy colored woman caused great excitement in the Hebrew quarter of St. Louis the other day by meandering along the street wearing a tall, black, pointed garment worn by orthodox Jews at morning prayers only. The woman would give no account how she procured the garment, and had no idea of its sacred character.

Little Mike Connelly was bitten by a yellow dog some days ago. His mother said that in the old country the lights and hair of the dog were used to cure the disease against hydrophobia, and so Mr. Connelly killed the yellow dog and bound the lungs and some of the hair of the wound. Mike is doing well with the signs of recovery.

David Stanton, Ohio's richest man, is a Scotch Irishman and grew up around the big firm of Pittsburgh. He began business as a clerk in a grocery store, and a month later was a clerk in a blast furnace, afterward manager, and at last half owner. After that the advance in life was fast. He is worth \$1,000,000, and gives largely to public charities.

Mr. Crouch of Randolph, Tenn., thoughtfully became engaged to two young ladies at the same time, and when the time came they both married him. The other day they both married him. The other day they both married him.

Maud, the twelve year old daughter of Dr. R. J. Wilson of Salem, Ind., arose in the middle of the night, and went to the street. Then she went back and stood at her own door fumbling with the lock. Her father heard her and, thinking burglars were drawing her pistol and were about to open the door, shot. The ball struck Maud in the shoulder. It will not kill her, but it awakened her thoroughly.

Persons who have a superstitious dread of Friday will not be pleased to learn that this is a thoroughly Friday year. It came in on a Friday, will go out on a Friday, and will have fifty-three Fridays. The last four months in the year that have five Fridays each; changes of the moon occur five times on a Friday, and the longest and the shortest of the year each falls on a Friday.

A Wabash, Ind., farmer handed \$25 to Archibald Stitt the other day and asked him to give it to his mother. He explained that thirty years ago, when Mr. Stitt's father was County Treasurer, he had been given a receipt in full for taxes when, in fact, he had paid \$10 too little. The Treasurer had made good the deficit, and now the farmer wanted to ease his conscience by paying \$25 to the Treasurer's widow.

The champion hog that was killed in Rhinebeck the other day in the presence of 3,000 persons, for weeks before his death had to be fed with a spoon. He was so fat and so large that he could not get into a small boy and a big iron spoon were employed. The boy had no success, for the hog ate half a barrel of feed daily, but the boy learned to love the hog and wept bitterly when he was slaughtered.

When the West Shore Railroad was being built one of the workmen had two fine St. Bernard dogs, which he kept at a cabin at Egg's Point, near Marlborough-on-the-Hudson. He went away unexpectedly in 1881, and never returned. The dogs remained and now there is quite a large pack of them. They are fine, large fellows, very shy, but savage, and are known all along the river as the Wild Dogs of Egg's Point.

A young Swede makes a living in Boston by washing dogs. He goes from house to house in the fashionable quarters, and for fifty cents or seventy-five, according to the size of the dog, he gives a pretentious bath. It is said that the plan was the thought of a well-known and charitable woman. She wanted to help the young fellow, who was out of work, and interested her friends in the scheme, and now he has about all the dog washing he can attend to.

One of the boarders in an Auguste boarding house was found lying dead, and some one was smoking his favorite meerschaum pipe. So he loaded it carefully with a mixture of opium and tobacco and went to bed. When he returned he found

received an emphatic expression of opinion from an elderly and estimable lady of the family whose name was swathed in bandages that covered powder marks. As for the pipe that had totally disappeared.

Twenty-five years ago a young Scotchman named Garrick went to Australia, leaving his wife behind him. After some years he heard that he was dead, and came to Hamilton with his little son, and there married his wife. He was a very good man. Meanwhile Garrick, who had not died, returned to Scotland with a nice little fortune and began looking for his wife. Two weeks ago he received a letter from him, and a week ago she joined him in Hamilton, and they were again regularly and lawfully married.

The Baptists of Georgia are rejoicing over their capture of Chief Justice O. A. Loch, for years an Episcopalian. He is an active Prohibitionist, and was therefore thrown into the society of the Rev. Dr. R. B. Hawthorne, a Baptist pulpit orator of local fame. After the election which was thorough victory for the Prohibitionists, the preacher went with the Judge to his home, where wine casks and bottles were piled out to the streets and emptied. In a few days Judge Lochman will be immersed.

An English clergyman, the Rev. Freeman Wills, vicar of St. Agatha's, Fishbury avenue, has set going three butcher shops, and has demonstrated that he can make a profit out of a dead animal. He has been successful in New Zealand, at figures averaging 20 per cent. less than those demanded by the regular butchers for the same quality of meat. Local butchers in competition with his shops have had to make large reductions in their prices. The Rev. gentleman is a brother of Mr. W. G. Wills, the dramatist.

Jack Osborn, a Wyoming cowboy, and his dog had a hard chase after a big other the other day. The dog, who was celebrated as an other killer, at length chased the other to a dead pool, well frozen over, and capturing one air hole. Both animals disappeared through the hole, and by and by the dog's nose came slowly to the surface. Jack pulled him out, but he had longed his last fight. The other's teeth and the struggle in the water were too much for him. His master cut the ice and dragged the dead body of the other to the pool, well frozen over, and the dog crawled up, and laying his head on the body, quietly died.

The agricultural statistics of Great Britain for 1885, which have been recently issued, show a very serious decrease in the yield of 1884 in some of the most important food products. The decrease in wheat is estimated at 2,023,211 bushels in position of 1884 in beans 2,610,783 bushels, in potatoes, 45,699 tons, in turnips 6,562,497 tons, and mangel 57,869 tons. In England in Ireland, on the other hand, there has been an increase over 1884 amounting to 197,016 bushels of wheat 135,288 tons of potatoes, 43,859 tons of turnips, and 60,253 tons of mangel. Both England and Ireland have shown an increase in the production of barley, amounting to 3,338,610 bushels in the former country and 463,598 in the latter. From barley it made malt and, of course, ale, so that, though food may be somewhat scarcer and consequently dearer, there need be no dread of a lack of drink.

COGITATIONS.

The first problem that a newly-decided official has to solve is how to put 100 pages in ten holes.

A Murderer with a Rifle in a Running Fight with His Pursuers.

H. C. Steadman, a prominent farmer of Bart County, proprietor of two creameries near the village of Lyons, the other day slaying Edward Johnson, alias John Anderson, a young man and a comparative stranger in the neighborhood. Johnson thrupped on picked a quarrel with Steadman, and without giving warning whipped out a revolver and shot Steadman in the bowels, causing death in a short time. There was no provocation for the deed. In the excitement which followed Johnson secured a Winchester rifle and a large quantity of ammunition, and mounting a horse, started off.

Constantly Parker immediately organized a party, armed with revolvers, and, mounting horses, gave pursuit, being joined from time to time by others along the way. They kept gaining on Johnson, and when 12 miles south, near the farm of Charles P. Johnson, a regular battle ensued. The murderer fired several shots in rapid succession, shooting Charles Johnson, brother of Charles, in the head, killing him instantly. He next aimed at Peter P. Johnson in the abdomen, making a mortal wound. His next shot killed Constance Parker's horse. This was followed by other shots, injuring horses and grazing some of the men.

Meantime the pursuers, whose numbers had largely increased, kept firing their revolvers, but the desperado was out of their short range. It was thought, however, that he was wounded. As the crowd began to close in on him, he jumped over the fence, and, running into Charles Johnson's barn, he opened a lively fire through the cracks and openings, and held the entire crowd, now numbering fully 100, at bay. They finally cautiously surrounded the barn, and carefully guarded themselves from the fire of the barricaded desperado. They continued to shoot into the barn at frequent intervals until dark. It was proposed to burn him out, but no one would volunteer to fire the building.

The barn contained eighteen horses and mules, about 100 chickens, plenty of grain, and a well. Besides these there were three calves used for the storage of vegetables. The barn and contents were valued at \$5,000, and it was thought advisable to burn the barn, and to get the dead body of the desperado. The crowd decided to guard the barn carefully all night, and resume operations in the morning. During the siege the mules and horses frequently neighed loudly, and it was thought some of them had been wounded.

Late in the night Sheriff Skinner from Tekamah arrived with a posse of ten men, armed with Winchester rifles. Next morning they opened fire again on the barn, and the desperado responded. His shot through one man's hat, through another's coat, and so on, but wounded no one, as they exercise great caution. The desperado guarded every side of the barn, and no one dared to approach to set fire to it, as he had been determined to do. In the afternoon he fired several shots through the farm dwelling house, where several men were stationed, but hit no one. A special train was ordered to carry fifty armed men from Tekamah to the scene of the siege.

A later despatch says: During the day he fatally wounded Edgar Everett, and seriously wounded several others. As he had food and milk in the barn, it was impossible to starve him out. It was therefore determined to burn him out, and this plan was carried into execution at 5:30 in the evening.

When Wright saw that escape was impossible he fired twenty or thirty shots at the crowd, no one being wounded, however. The crowd, which entirely surrounded the barn, fired volley after volley from Winchester rifles from all sides on the spot in the barn where they supposed Wright to be. When the fire was extinguished it was found that his head had been almost shot away and his body was full of bullets. His legs and arms were burned off. He was buried near by. All the wounded are doing well and will soon recover, except E. Everett, whose death is expected at any moment.

The loss by the burning of the barn is \$5,000, which will be paid by the county or

by contributions. The property belonged to Charles R. Johnson, one of the murderers.

Wright was a comparative stranger in the neighborhood, but it is believed that he was some notorious outlaw or cowboy despoiler of a Texas over-crowded upon it. It is believed that he was wounded in the leg by his pursuers before he sought refuge in the barn, otherwise he would have attempted to escape on a fresh horse from the barn.

THE ABANDONED SCHOONER.

A Mystery of the Great Lakes.

An old lake captain relates the following remarkable occurrence. It is true I have several times sailed alongside of a schooner for the last twenty-five years, and I've met with some things that have staggered me. Perhaps the strangest of all was the loss of the crew of the Jamestown.

This affair took place in 1867, during the coldest and harshest winter of the season. The circumstance was specifically forgotten under the press of other matters. At that time I was in a wheat carrier called the Flying Cloud, and sailing from Chicago. The Jamestown belonged somewhere on the Ohio shore of Lake Erie—about Painesville, I think. We were the lumber trader, making her runs between Saginaw and Toledo and Saginaw and Sandusky. On the night of the 1st of August, in the year named, as we were abreast of Alpena Lake, Michigan, the wind died out until we scarcely had storage way, and the lake was almost as smooth as a mill pond. It was a warm, starry night, and the only sail in sight when night shut down was a propeller far to the east of us, evidently bound for Georgian Bay. What little wind there was, and what we had had for several hours, was directly aft, or from the north, and any vessel beating up-gate it could not make a mile an hour. Remember, now, I have told you that, at dusk, no vessel was in sight to the south of us.

About 10 o'clock, with the wind so light that our booms were swinging inboard when the schooner lifted now and then on a long swell, and when everybody aboard except the mate, lookout, and a man at the wheel, had turned in, the voice of the lookout was heard shouting:

"Port! port! There's a schooner dead ahead of us! Over with her; heave!"

"The man at the wheel pulled her over, and her head went around slowly, and next she was right abreast of us. I was so close that any of us could have jumped aboard of her. I was on deck as she came abreast of us, and I ran to the port side, followed by three or four of the crew, and called out to know what she was doing with a light in the rigging. She hadn't even a light in her binnacle, and all aboard was dead as a doornail. The man, showing his face. She had all sail set, and as true as I sit here she was sailing dead in the wind's eye! She passed us slowly and majestically, and though we hailed again and again not a human being showed himself. She hadn't passed us more than two lengths before her head fell off to the northeast, and she seemed to lose her way. I know we weren't making a mile an hour, and so you may reason that what sailing was done was performed by the strange craft, and that dead to windward."

"Well, sir, as the day after passing us the mate came running up and slugs out that everybody aboard of her must be asleep or dead, and it seemed the proper thing to drop the yawl into the water and board her. Before doing so, however, we hailed her several times at the top of our voices without getting an answer. I took the boat and two men and pulled over to her. She was in ballast, and wore a rope trussing over-board, and I had to get up to the fore chains. I took a lantern with me, and one of the fellows climbed over the bows and was the first to board the yawl. We found everything as ship shape as you please, every rope coiled down, and every hatchway made fast in sailor fashion. There wasn't a sign of a struggle on deck, no more could you discover any evidence that the crew had left in a hurry. The yawl was missing, but the curious thing about it was the fact it had been hauled up as if by somebody on board. This wouldn't have been the case, you know, if the boat had been lowered in a hurry and brought alongside."

"We made a dive into the fo'c'st, but found no one. The men's bags were there, and nothing had been taken away. We visited the cabin, but with the same result. Clothing hung on the hooks, and everything looked as if Captain and mate had just stepped out of the deck. We examined the pump, but there were no signs that food had been taken away. Here was a vessel on a calm sea with every sail set and nobody aboard, and I found myself growing more chicken-hearted as we looked her over. Had she sprung a leak? I didn't believe it, because she had the buoyancy of a dry vessel, but we pulled it a hatch and descended. She was as dry as a bone."

"I had recognized the craft long before this as a man named Charles Day. She carried six men before the mast, and there was Captain, mate, and cook to make the complement of nine. When we had hunted from top to bottom without finding a soul aboard I just felt my hair rising to stand up and a cold chill climbing up my spine. The man with me was completely unnerved, and I had to cue his eyes good and stout to keep him from running away."

"Here was a big chance for salvage, as you can see, and I called the other man aboard and we took in all sail. We then set the yawl on a pole, pulled her head around, and took it aboard of the Flying Cloud. With any sort of decent weather we had a decent chance of getting her into Tawas or Port Austin. When it came to putting a man aboard at her wheel, not one of my crew would go, no matter what I promised. I had therefore decided to go myself in case a breeze sprang up, when what should come bounding down upon us but a white squall. It caught us as it was, and we escaped by the skin of our teeth. When we got time to draw breath and look around the Jamestown had disappeared, having vanished, and she was not seen again by mortal eyes."

"I reported the case, of course, and it was soon known all about the lakes, but I'm telling you, sir, that the schooner not only passed out of sight forever, but neither her crew nor her crew has been heard from to this day. They were looked after by tugs and other craft, and the shores were watched for months, but all in vain."

Every newly-created British Baron pays the sum of £300 for his titular honor, and this sum, instead of going to mysteriously named hereditary officials, is now paid into the general treasury. The total arising from this source is considerable, especially as a Baron who is raised a viscount or a Marquis also pays something over a hundred pounds for his promotion, whilst newly-created barons have to hand over to the exchequer upwards of £150.

Madame Henri Greville, the French novelist, lecturing on "The Peasants and Priests in Russia," at New York, the other day, said: "A man becomes a priest in Russia only by marrying the wife of the priest who he died or resigned. A priest can marry but once and when his wife dies must resign from the priesthood or go into a monastery. Thus the priests who are the happiest and best cared for women in Russia. The lower class of priests are but poorly educated. Having no and one sermon they preach it over and over, the service being held but once a year."

President John King, who was put into the Erie Railway to save it, has the face, the figure, and the eye of a panbrowner. He is fat. He has the Hebrew nose and mouth, and his clothes are as loose and as unbecomingly shabby as the garments of the successful second-hand, old clothes man who has handed over his business to another generation. "John King is the fattest of the priest who he died or resigned. A priest can marry but once and when his wife dies must resign from the priesthood or go into a monastery. Thus the priests who are the happiest and best cared for women in Russia. The lower class of priests are but poorly educated. Having no and one sermon they preach it over and over, the service being held but once a year."

Professor James Russell Lowell, whom Emerson and other good judges have pronounced the greatest American poet, is probably also the best pronouncer of English. It is not likely that he has a superior in England, and it is not likely that he is a superior in the United States. He says that for status, and he does not say France or France for France. Poets like Mr. Lowell and Dr. Holmes have to be very particular about these things, because the length or brevity of a vowel is the very essence of rhythm and measure. For this reason, good poets are more and more like good poets than ordinary prose. It is worth a lesson in the near Dr. Holmes or Mr. Lowell read their own poems. Dr. Holmes is specially good at reading his witty and good Mr. Lowell in reading his serious poems.

The Mutual Improvement Society of the Church of the Redeemer held their meeting this evening "Friday" at the residence of Mr. J. Campbell, Main street.

There have been small markets this week owing to bad roads. There is a scarcity of produce 30 cts. was asked for butter yesterday.

The Misses Wartner are daily receiving numerous visitors to their millinery rooms. The display is particularly attractive, the elegant and costly millinery trimmings being especially attractive.

Hall's Hair Renewer renews, cleanses, brightens and invigorates the hair, and restores faded gray hair to its youthful color and lustre. People with grey hair should use the Renewer, and thus conceal from the world their bleached locks and advancing age.

By lack of open air exercise, and the want of sufficient care in the matter of diet, the whole physical mechanism becomes impaired during the winter. Ayer's Sarsaparilla is the proper remedy to take in the spring of the year to purify the blood, and give vigor to action, and restore health and vigor.

Dr. Greenhalgh addressed a large meeting of the Medical Institute at the Council House on Wednesday, explaining to them the provisions of the new Franchise Act as it affected the Indians. He advised them to form an organization and to work harmoniously and unitedly, and they would thus make themselves respected by both parties. The Indians hold the balance of power in East Hastings. The Doctor was invited to organize a meeting to be held for organization two weeks hence.

The spring opening of millinery at Mrs. Dalton's is now the great centre of attraction for the ladies of Deseronto. Never have her rooms presented such an inviting appearance as at present, there being a splendid display of hats and bonnets in all the latest styles, tints and tones. The visitors are especially charmed with the excellent quality of the goods. The elegant display of children's hats, &c., is particularly attractive and general admiration is expressed at this department. She extends a cordial invitation to all the ladies of Deseronto and vicinity to attend her opening.

It will be remembered that Mr. Erasmus Wiman, of New York, succeeded some time since in effecting the release of a young Canadian from Ludlow jail, in which he had languished for nearly a year on account of inability to pay a small debt. It seems there is another Canadian in the same place who has been detained there for the past six weeks, and is now moving for his release, and is at Albany this week, where he addresses the members of the state congress to a view of the exhibition of the present law of making such changes in it as will render such cases of persecution impossible. It is to be hoped that Mr. Wiman will interest his benevolent association. Such laws are a disgrace to the statute book of any civilized state.

About half past eight on Thursday morning a serious accident occurred at the Grand Trunk Railway near John Woodcock's house about four miles on this side of Naprean. It would seem that William Hearn, a brother of George Hearn, of New York, started from Wesley Abrams, where he had passed the night, to walk to Naprean. A large crowd of ladies and gentlemen, who were on their way to the Grand Trunk at a high rate of speed. Hearn desired getting of the track until the train was near by on his side, although he got from between the rails, he was so close to the track that the steam chest of the engine struck him on the side knocking him a considerable distance. Mr. John Woodcock, who saw the occurrence, ran towards the unfortunate man whose arm was completely smashed and his face and chest extensively injured, and blood was pouring from his mouth and nose. Mr. Woodcock turned him over on his back, but he was perfectly unconscious, although he groaned loudly. The train which had come to a stand as quick as possible, backed up and took the unhappy man to Naprean, where medical aid was immediately procured. As Hearn is between 70 and 80 years of age it is not at all probable that his life can be saved. As far as we are informed, he cannot be found with those in charge of the train, who did all they could to prevent the accident. We have since learned that the unfortunate man is dead.

HOME RULE—GLADSTONE'S NEW BILL.

LONDON, April 8.

Yesterday Mr. Gladstone asked for permission to introduce a bill for the future government of Ireland. In the course of his speech he said that the government had decided to establish a parliament at Dublin which should be both administrative and legislative. On account of the political equality of the three countries, England, Scotland and Ireland, he said, he was in favor of an equitable distribution of imperial funds. Peculiar circumstances existing in Ireland made it necessary to consider the granting of the minority in that country. Government would be obliged to consider the class connected with the land. Irish representatives will not sit at Westminster.

He said that the Parliament in Dublin shall be a dual body composed of two orders, the one of which will have power to veto the acts of the other. The first order shall have 100 members and the second 200. The order of 200 members will continue to sit in the House of Lords and they will be granted option of having seats for in the Irish House of Commons.

The Bill empowers the Queen to delegate to the viceroys the power to make laws as she may choose. The Irish constabulary will remain under the same authority as at present. The Irish parliament shall have no authority to interfere with any religious act. It will be empowered, however, to deal with laws affecting trade and navigation, and to make laws and measures and postal administration.

The Bill will preserve the fiscal unity of the empire, but the entire proceeds arising from the sale of the land in Ireland will be held for the benefit of that country; the funds to be used for the discharge of the public debt and to go into the Irish exchequer.

Provisions of the bill in the Irish legislature power to amend the Land Act. Parliament will have duration of five years. It shall have no power to interfere with prerogative of the crown such as army, navy and other armed forces, and nothing to do with foreign or colonial affairs.

FRIDAY, APRIL 16, 1886.
NEWSPAPER PERSONALS.

One of the pleasant features of modern journalism is the introduction of society events, and the "personal" as the brief mention of individuals is termed. Formerly it was only persons of high distinction whose movements were noticed in this way; now persons of ordinary consideration enjoy the honour of "personal" mention. When this practice was first introduced, many of our papers denounced it as undignified; journalism describing private evening entertainments was sneered at.

But now the practice has become general, and wedding and funeral occasions also have become prominent topics of newspaper comment, and this kind of information is as largely sought after, by ladies especially, as anything which the columns of our papers contain. Society news forms an important feature of our leading metropolitan journals as well as of the rural districts.

In the anxiety of some of our journalists to cater to the depraved taste of their readers, some unprincipled editors have allowed private scandal to ventilate itself in the pages of their papers; but those who value the character of their paper will never be willing to sacrifice its reputation for the sake of selling a few extra copies, by obtruding into private scandal unless it has obtained public notoriety elsewhere.

This new feature of journalism enhances the value of the paper to absent friends. It gives home doing, which to them, isolated from home, is more important than public affairs. If it is not profitable or improving to the mind, it has its advantage over the records of crime with the columns of the papers are filled, it does not deteriorate public morals.

LONSDALE BRIDGE.

To the Editor of the Tribune.

DEAR SIR:—I beg to draw attention to the present condition of the Lonsdale Bridge. During the winter the north span of the bridge was filled in, the work being done by Mr. Francis, the local surveyor. Part of the wall on the west side has fallen and the centre of the road which was to be a gradual incline from the old part to the plucking of the bridge, has sunk nearly two feet leaving the approach to the bridge in a very bad condition. It was understood that the job was to be done by tender. Mr. Donald McEae tendered for it. His tender was not accepted being considered too high and it is stated that it actually cost more than his tender. However that may be it is best known to the authorities, but where such jobs are undertaken by the county they ought to be done in a satisfactory manner. Our respected First Deputy Reeve, Mr. Francis West, must often pass over this bridge and we hope that he will have the matter set right at once.

OUR STREETS.

To the Editor of the Tribune.

DEAR SIR:—With the opening of spring we shall have the least amount of ice, its mandate enjoining all citizens to clean up all refuse that has accumulated during the winter and to remove it to the place appointed. They will want us that on a given day the inspectors will be around to see if their instructions have been carried out, and if not, the offenders will have to meet the painful penalties due to disobedience, as they are sure these measures are necessary for the health of the inhabitants. Well, Sir, I will not contest this point, and being an advocate for obedience to lawful authority, will clean up my own premises and advise my neighbors to do the same.

But what I want to call your attention to, and through your columns the attention of those in authority, is the filthy condition of our streets. Mr. Stagnant water, refuse from houses, decaying vegetable matter, dead cats, with every other description of filth, compose the surface material of our streets. Now, Sir, if it is on sanitary grounds that we clean our back yards, I appeal on the same grounds for the cleaning of our streets, as the thing of the one and the leaving of the other undone won't tend to the health of the town; so that we shall still be victims of malaria, typhoid and other diseases. Then, again, look at the drainage system of the town. We have drains, it is true, but for the most part they are useless, no attention having been paid to taking off the surface water. As an illustration, take the Main-street drain. When we have a storm, or at the break-up of winter the water from St. George-street runs over the drain and floods the sidewalk. Pass on to Mill-street: there it is worse, the water there almost forms a torrent rushing over the railway track to the front of the factory, making the road almost impassable, and leaving the locality no better than a fever swamp. And yet this water could be conveyed into the drain by means of two gratings. I commend these matters to the collective wisdom of the town council, hoping they will take action, so that when they come before us for a renewal of confidence, we shall be able to judge them by their words and support them for their works, and you, Mr. Editor, please continue to remind them of these matters as frequently as possible.

J. C. Conger has purchased the Evergreen House, West Point, of A. W. Hepburn, and will enlarge and improve it in many ways.

The prosperous village of Tweed now rejoices in a newspaper. The light of civilization is gradually breaking in on the back townships.

Belleville police will have their spare hours by looking after the bigamy cases of which Hastings appears to have more than its share.

Mr. Dinwoodie, of Campbellford, has received the contract from the Grand Trunk to repair and fit for traffic the road from Madoc to Eldorado.

One of the attractions at the Pictou races on the 24th May, will be a match between a moose with a running mate, and the best team of horses that can be produced in Prince Edward.

J. J. Whiteman of Galway, has been arrested for bigamy. It is said he first married Anna Yeomans, of Enterprise, in 1862. He deserted her and five children in 1880, and two years ago married Isabella White.

A fine lot of stone has been spread on Edmund street west of St. George.

Ladies in great numbers continue to be attracted to the handsome display made by the Misses Watson in their millinery room on St. George street.

A number of vagrant cows, unmindful of the fact that the cow by-law is already in force, have been working havoc in many gardens and front plots.

The Band has been out during the past two or three evenings, playing a number of new selections, which show careful practice during the winter months. Their fine music is thoroughly appreciated by the public.

Michael Marrigan will be head shipper in the yard department this season. Charles Dryden, jr., will be shipper on the west yard; G. F. Sills in the east yard; and Wm. Wilson will assist Mr. McCaughey in the dressed lumber department.

Fine, mild, summer weather this week. Snow all gone in clearances. The ice bridge still holds opposite the town, but is melting away rapidly. A slight breeze would take it out in a few hours.

Dr. Oronhyatskha, Supreme Chief Ranger, has appointed Brother Ahnonaktha (Chief S. Green) to be Deputy Supreme Chief Ranger in the Independent Order of Foresters. We congratulate the Chief on his honours.

Town Councilors should take a look at Fourth-street. There are two gratings at the top of the unfortunate thoroughfare which were put down to receive water, but they do not at present fulfil their functions, and the water flows down the street, and hundreds now visit that locality to behold the ocean of mud. A few minutes work would remedy all this by diverting the water into the proper channel.

We direct attention to the flattering inducements held out to the public of Deseronto and vicinity in the advertisement of Mr. G. E. Fraser, of the Smith Block. Mr. Fraser by a careful study of the wants of the people and by good business qualities has built up the greatest dry goods trade in Pictou. His new branch store in Deseronto will be conducted on the same principles and as everything is marked plain and in no instance second prices are made, the public can expect every advantage. The stock is large embracing dress goods, trimmings, corsets, laces, gloves, hats, ready made clothing, boots and shoes, all offered at prices which defy competition. Messrs. Noxon and staff are courteous and attentive and only anxious to please customers.

LOCAL ITEMS.

65° in the shade yesterday.
Study our advertising columns very carefully.

Mr. John Holcomb runs the little motor "Mohawk" this season.

May 1st will be observed as Arbor Day by the people of the Northwest Territories.

Mr. W. Boulter, of Picton, has been elected President of the Fruit Packers Association.

Mr. James Dufor, of Hay Bay, did not lose his horse through the ice as previously reported in these columns.

Mr. Jas. H. Heams is putting a wire fence around his farm recently purchased from Mr. W. P. Bowen.

Mr. Chas. Curlette has disposed of his house in the steamer "Pondore" to Capt. Collier, who now owns a half interest.

Wm. Heams, the old man recently killed on the Grand Trunk Railway track, was not a relative of Mr. Heams of this village.

The refuse boilers are again ready for action. Mr. Chas. Belcher will again have supervision over that department.

Large quantities of charcoal of a superior quality continue to be manufactured and shipped from the Chemical Works.

Mr. Thos. Pigen has returned from Campbellford and will be found at his old post in the yard department this season.

Gravel is being quarried over lower Mill street and on the road from the Machine Shops to the Flour Mills much to the improvement of those thoroughfares.

Mr. Wm. Mitchell is pushing forward the new building at the trestle dock near the refuse boilers. The new structure will be 340 feet in length; 30 feet wide and 37 feet in height.

On Saturday last Chief Gunyon could be seen with his coat of building a chimney at his residence in the east end with a dexterity which even a Conley or Booth might envy.

Mr. John Watson, of Flower Terrace, has had pantries in bloom in the open air for the past three weeks. When we consider the weather of the past few weeks this is indeed an event worthy of being chronicled.

Conductor Coughlin on Wednesday brought in fifteen heavily laden cars and the passenger coach, or the equivalent of seven cars, the largest train ever brought over the Bay of Quinte Railway. It was a very large load for such a small engine.

The library of the Mechanics Institute is now open every evening after 6 o'clock at the usual hour. Miss Millie Anderson, the assistant librarian, will in future give out books to members on that day.

As after 6 p. m. the streets are generally crowded with pedestrians, it is suggested that it would be advisable for juveniles to withdraw both themselves and their tricycles from the sidewalk during this time.

Miss Maybent, at one time connected with the Deseronto Public Schools, has resigned her position in the Market School, Belleville, to accept the vacancy in the Deaf and Dumb Institute, caused by the resignation of Miss Sawyer.

If you are afflicted with Rheumatism call on W. G. Egar, druggist, immediately and procure a bottle of Ayer's World's Wonder or Family Liniment, it is a certain and positive cure. It is infallible for Sprains, Cuts, Bruises, Scalds and all diseases requiring external application. Price 25 cents per bottle.

A Sopsiaburg "taxpayer" in a communication to the Picton Times, favors the construction of a cable car line to Deseronto, as he is convinced it would prove a great benefit to Prince Edward. He favors a ferry at the light house instead of a bridge at Deseronto. But ferries are too slow in such an age and are everywhere being displaced by bridges.

Mr. W. W. Carter, as will be seen by advertisement, will make a grand display of fine beef during the Easter holidays. Being desirous of securing the very best article he went recently to Toronto where he purchased seventeen head of choice cattle, fed by the most celebrated cattle men of Western Ontario. These cattle have been much admired, and it will be worth while to call and see the Easter display at Mr. Carter's shop next Friday. Orders should be sent in immediately to ensure attention.

Mr. Joseph Picior, of the Indian Reserve, has brought into this office a natural curiosity, which has for a few days been attracting the attention of a host of onlookers, all of whom aver they never saw its like before. It is a russet apple, from one end of the stem of which a nourishment from the old apple. The new specimen is well formed and shaped and still flourishes. Mr. Picior found it in his cellar, and was immediately struck with the wonderful color which he had discovered.

Advice to Mothers.—Are you disturbed at night and broken your rest by a child suffering and crying with pain of cutting teeth? If so send at once and get a bottle of "Mrs. Winslow's Soothing Syrup" for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it. It cures Dysentery and Diarrhoea, regulates the Stomach and Bowels, cures Wind Colic, softens the bowels, reduces inflammation, gives power and energy to the whole system. "Mrs. Winslow's Soothing Syrup" for children Teething is pleasant to the taste and is the female physician and nurses in the United States, and is for sale by all druggists throughout the world. Price twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

NEXT Sunday is Palm Sunday.
The ladies of Deseronto are all in favor of home rule.

CHURCH papers books and blank books at the Tribune office.

The Deseronto Dramatic Association have been invited to give "The Lady of Lyons" in Picton at an early date.

It is safe to say that no such mud as is to be seen on Fourth-street has ever mud found outside the limits of Toronto.

The Gannanque papers think that the Rathbun Company Band are "rushers" to be looking so far ahead, for an excursion.

The Boundary and other roads in the vicinity are in a frightful condition. All travelers admit that such roads could not be found outside of Lemnos or Haatings.

Perfect soundness of body and mind is possible only with pure blood. Leading Medical authorities endorse Ayer's Sarsaparilla as the best blood-purifying medicine in existence. It vastly increases the working and productive powers of both hand and brain.

The funeral of Mrs. Archibald Lindsay took place Sunday forenoon. Religious services were conducted at St. Mark's Church, by Rev. Rural Dean Stanton.

The remains were then brought to Shawanville for interment in the cemetery in that village.

The baseball season has already set in, several well contested matches having been played last Sunday in the vacant field south of the town. It looks as if Sunday Schools were to have considerable competition during the coming season.

No intelligent workman or mechanic can afford to be without a daily newspaper in this progressive age. You can get a good daily paper at THE TRIBUNE office for one year, or the same at a day, for six or ten cents a week; for twenty-five, thirty-five, or sixty cents a month.

REV. D. O. Crossley has made arrangements with the Deseronto Navigation Company to carry the ministers and delegates attending the Methodist Conference in Picton in June at reduced rates.

Ayer's Cathartic Pills are suited to every age. Being sugar-coated they are easy to take, and though mild and pleasant in action, are thorough and searching in effect.

Their efficacy in all disorders of the stomach and bowels is certified to by eminent physicians, and many of our best citizens.

The Minister of Education has set apart the first Friday in May as Arbor Day for the purpose of planting shade trees, making flower beds, and otherwise beautifying and improving the school grounds. It will, no doubt, be loyally observed by school boards and teachers in all districts of the Province.

Ms. Benjamin Gilbert, of Sidney, planted a willow tree in front of his house 34 years ago. At the time of planting the tree measured one inch in diameter. Last week he was obliged to cut it down, and measuring it, it found that it measured 2 feet 10 inches in diameter, the circumference being 8 feet 6 inches.

For Sale the Weekly Globe will be sent to any address in Canada, Great Britain or the United States for three months. For \$1.25 the Evening Globe will be sent for three months, and the Weekly for the balance of the year. Subscriptions received at THE TRIBUNE office.

COMPLAINTS have been lodged at this office in reference to the unseemly conduct of a number of young men, on Monday night at the corner of Mill and Main-streets.

It is said that the insulting remarks which they addressed to ladies passing by were of the most outrageous character last Sunday evening. The Chief has taken the matter in hand and will apply the needful remedy.

A gigantic lawsuit will soon occupy the Courts between Messrs. Wm. Coe, of this village, and S. J. Ritchie, of the Coe Hill Mining Company. Mr. Coe sues Ritchie for \$50,000, amount due for the purchase of the Coe Hill mine, and Ritchie returns the compliment to Mr. Coe with a suit for \$500,000 for alleged wrong information regarding the resources of the above mine before the purchase took place.

—Madoc Review.

Gladstone, Healy, Churchill, Harrington and others, grappled with the mighty question of Home Rule in Ireland, for three hours varying from twenty minutes to three hours in length. Our own Blake and Thompson, not to mention Gage and Rykert, can speak any day from ten to six hours on such trifling matters as the appointment of a postmaster or the execution of a madman.

English orators cannot compete with their Canadian brethren.

The record honestly won by Mr. Thomas Johnston's hens has not yet been beaten so far as the number of eggs is concerned. Mr. John Prickett is the happy owner of some fowls which, if the size of hen fruit is taken into consideration, will be hard to beat; at least, we should judge so by a specimen he has placed on our editorial table. It measures 7 inches one way and over 6 inches the other. Mr. Prickett is confident that when his hens realize the near approach of Easter, they can easily produce eggs of even more colossal dimensions than the aforesaid specimen.

The coming season promises to be an eventful one in local aquatic circles. Every where you hear the hum of busy preparation.

The "Arrow" owned by Mr. E. A. Thompson, a very handsome painted boat, and her name is to be changed to the "Nellie". The "Playway" which carried off Mrs. M. D. Crossley's flag in the skill sailing and rowing race last year, has also been gorgeously painted and she too changes her name to the "Nellie".

Mr. E. V. Edwards, the owner, feels confident of sailing power to cope with all competitors. Mr. Taylor, of Flour Mill fame, is also fitting up his boat in fine style.

The first boat racing is also under way.

Mr. Thos. Mallory has purchased Mr. Hoppes' racing shell and as a consequence the "Arrow" is now the property of Messrs. Campbell and Row already bent on a race to Lake Huron.

It is a good thing to see our young men evincing such interest in all these manly sports.

Easter Sunday, April 25th.
New stock of Little Thread, Silk and Kid Gloves for Ladies and Children, just to hand at The Big Store.

For Ladies' morning Wraps see the new French Percale and Foulards at The Big Store.

The Napanee Express has been sold to Mr. C. O. Brevery who takes possession on Monday next.

The Kingston papers refer in flattering terms to Rev. Mr. Crossley's sermons and services in connection with the Easter festival.

The annual vestry meeting of St. Mark's Church will be held on Easter Monday evening, 20th inst.

Geo. Akroy has assumed the position of assistant to Mr. Jacob Bresselt in the Big Store of the Rathbun Company.

Messrs. M. W. Pruthy and Son and John Grant are the applicants for shop licenses in Deseronto for the ensuing year.

The Rathbun Company will make some improvements this spring on the docks and freight sheds at their Picton agency.

"Rosina Meadows" is the title of the next play to be presented to the public by the Deseronto Dramatic Association.

The Ladies Missionary Association of the Church of the Redeemer intend holding a Fancy Fair on Tuesday and Wednesday, the 18th and 19th of May.

Two thousand refrains of the musical ball-frog delighted all ears on Wednesday evening for the first time this season. Hall, beautiful warbler.

The new stock of Hats at The Big Store consist of all the newest designs in Felt, Straws and Drills both for men and boys. These goods are of special value having been bought direct from the English and American markets.

SPECIAL Easter Services are being prepared, and will be conducted in the Methodist Church on Easter Sunday both morning and evening.

The Churchwardens of St. Mark's Church request that all accounts against the Church be cleared to Mr. John McCullough before the 21st inst.

Mr. Samuel Croft, Florist to H. B. Rathbun Esq., will have a Choice lot of Plants for sale at The Big Store. Monday next 19th inst. Don't fail to see them.

We hear that the members of the Deseronto Canoe and Boating Club intend having sailing and rowing races semi-monthly during the season. Many rich and handsome trophies will be presented by members for competition in these matches.

A "Glimpse at the Hub" is the subject of a lecture to be delivered under the auspices of the M. E. Church in the parlour of the Church of the Redeemer this (Friday) evening at 8 o'clock. Admission, free; collection at close. This is the last public meeting of the season.

The Presbyterian Sunday School Concert will be repeated next Tuesday evening. There will be a change of programme. The last effort was of a pleasing character, and that a large number have made a request for its repetition. The singing and character songs of the children will be found deeply interesting.

It is said that the sawdust piles to the west of the town are nightly the resort of a number of dissolute characters of both sexes. The last effort was of a pleasing character, and that a large number have made a request for its repetition. The singing and character songs of the children will be found deeply interesting.

VAST quantities of cedar and other lumber have been coming in by rail to the Cedar Mill, from the lines of the Central Ontario and N. T. & Q. R. Railway. Sixty loads of this lumber could be counted at the Deseronto Junction last Friday. The day of Quincy railway men had their hands full of disposing of these cars as they arrived.

Mr. Gladstone's Home Rule bill has passed its first reading without a division. The second reading will take place on the 6th of May. The bill is now in the hands of the Committee on the Irish Question.

The Dominion Business College, Kingston, is now undoubtedly the leading institution of that kind in Canada. Principal James Thompson, of Deseronto, is among the best students in the college; that they are a credit to the school from which they came. This is a most satisfactory statement. We understand that some more of our young men and women contemplate taking a course at this excellent institution.

From the Post Master General's Report we learn that for the fiscal year ending 20th June, 1885, the gross revenue from sale of postage stamps, &c., at the Deseronto post office was \$2,380.39, and the expense of salaries, &c., were \$920. For some of the neighboring towns and villages the figures are Napanee, \$5,718 and \$2,340; Picton, \$4,382 and \$1,840; Trenton, \$3,694 and \$1,320; Shawanville, \$447.55 and \$211; Northport, \$292 and \$110; Marysville, \$168 and \$70; Lansdale, \$123 and \$60; Melrose, \$81 and \$40; Road and \$35.

Mr. Norman Williams was the victim of an unfortunate accident on Wednesday afternoon. He was assisting in raising a house of the frame of the new structure at the trestle dock, when a bent log crushing and fracturing his leg just below the knee. Dr. Clinton reduced the fracture, and the sufferer, one of our most respected and industrious citizens, is progressing favorably.

He had taken out a policy in one of Mr. McCullough's companies two weeks ago, a fortunate thing under the circumstances.

Mr. William Stoddard, of the Big Store, went to Belleville to spend the day with his friend, Mr. Jas. Mills, of that city.

Whilst in the yard after breakfast he slipped and fractured his left arm two or three inches below the shoulder joint. Dr. Burdette was called in and reduced the fracture and Dr. Clinton also went up from Deseronto to attend the patient. Mr. Stoddard, who, it is unnecessary to say, has the sympathy of all persons, is recovering rapidly from the injury received. He arrived home in Deseronto on Wednesday and is progressing favorably. He is expected to be out in a week or two. Mr. Mills and family were unwavering in their kind attentions to him, while the members of the Masonic fraternity, Belleville, and other good citizens of that city, were also most anxious in their efforts to minister to his comfort.

SHANNONVILLE.

(From Our Own Correspondent.)

The last quarterly service for the year in connection with the Methodist church on this circuit will be held on the 9th of May; services will be conducted by the Rev. Mr. Seymour of Thompsonburg.

Some evil disposed persons or persons could considerable damage to a boat belonging to Arthur Hart of this place, after a reward of \$10 to any person giving information that will lead to the discovery of said parties.

The store which Mr. Deven has been erecting on the site of the one recently burned is about completed and will be ready for Mr. Kerr to take possession of this week.

The business of this place is apparently on the increase as we noticed L. E. Mills, hardware merchant, sending out a packing wagon on Monday morning last, and Mr. Hill, baker, starting a bread wagon.

The fears that were entertained a few days ago regarding the prospect of sweeping away the ice saw-mill were not altogether groundless as a part of it has since fallen away.

We are pleased to find that our esteemed friend Mr. C. S. Van Lue has so far recovered his health as to allow him to again resume his business at the Gried Mill.

A. Roberts, of U. C. College, Toronto, is spending his Easter holidays at home.

READ.

(From Our Own Correspondent.)

Mr. Michael McGinnis, of Buffalo, Mr. Thomas Murphy has left for Ottawa to resume his studies at the College.

Miss Barry, of Hastings, who has been visiting her sister Mrs. Daniel McAuley for some time past left for Belleville on Tuesday.

The Rev. Father McCarthy has been to Kingston during the week. This being Holy Week all the clergy of the diocese have been attending the ceremonies of the church peculiar to this season at the Cathedral.

Monday, Tuesday and Wednesday the office of "Tribuna" was held and on Holy Thursday there was high mass after which the blessing of the little girls took place.

Last Sunday being Palm Sunday the ceremony of blessing the palms took place in commemoration of Christ's entry into Jerusalem.

The next Sunday being the holy season of Lent, next Sunday being Easter day. This year there were forty-six days in Lent owing to the full of the Paschal moon taking place last Sunday, the Sunday after being Easter day.

Last Friday Mr. B. Conner, of the fourth concession was cutting wool, his brother-in-law Mr. James Barry of Hastings was assisting him and by some means his right hand came in contact with the saw while in motion and was badly cut. Tender and willing hands bound up the injured hand, which was subsequently dressed by the doctors.

At latest account we were getting on well and no serious consequences were expected.

We are informed that a commission *de lunatico inquisito* is about being issued to enquire into the condition of some young men, who have been strangely affected by Cupid that attend to the college.

The first symptoms seemed to have appeared when there was such a rush to the Post Office for letters on St. Valentine's Day. One young man offered twenty-five dollars for a photograph.

The spring work has fairly commenced although there has not been much snow done yet owing to the last being so wet. We have had beautiful weather for the last week warm, and fine, more like June than April.

The road after dying up last. The first thunder storm of the season took place last Monday.

We understand that several new residences are to be erected this season so that our contractors will have their hands full.

BELLEVILLE.

(From Our Own Correspondent.)

To day navigation may be said to have fairly opened. Early in the morning the *Terrence* came steaming in from Trenton with Capt. Forte in charge. The Captain seems to have wintered well and he comes out with an entire new stock of stories which he tells with an inimitable jollity and drollery.

The *Arctonic* which is the Quinze's place, until the repairs on the latter are completed, paid her first visit this forenoon. Expectation is high in regard to what the Quinze is to be in her new reg. She always has been a popular boat but "they say" that in her new spring fittings she will be more of a favorite than ever and will be the "Belle" of the Bay.

Building is to be quite active in Belleville this coming season. The Methodists and the Roman Catholics are each to build a fine Church Edifice. The Salvation Army build a neat and substantial structure for their barracks on Pinnacle Street. Aside from these buildings a considerable number of private residences are to be erected. It is hoped that hard frosts have at last reached a turning point and that hereafter the road will lead toward greater prosperity.

The Mechanics Institute had no little difficulty in getting an appropriation for the city this year but at last succeeded in getting \$200 by a divided council. There seems to be an impression (whether just or otherwise) that the Institute, instead of being what it was designed to be, has come to be a high toned club room, and although it is called a "Mechanics" Institute yet mechanics is not wanted there and if he does of the Institute is soon frozen out. The friends of the Institute should correct this impression. If a reform is needed it should begin at once, otherwise its days are numbered.

The early winter weather is most acceptable. In the flooded district where a week ago the ice was two and three feet thick in and around the houses, now it has all gone and new life animates the places that have for months been desolate and dead.

Many a family in Belleville will long remember the, to them, terrible winter of 1882-3 when they were driven from their homes by the merciless waters. There has been great suffering and damage to property and it had not been for the untiring efforts of the women's Christian Association and the generous responses of the people to the appeals for their sympathy the suffering would have been frightful to contemplate.

Occasionally there are stormy scenes in the

Council Chamber of our City Fathers. Mayor Melnick provides with much fairness and ability, but there are times when he has his hands more than full. Alderman Diamond likes to hold the reins and drive, but Alderman Falkner never was broke, to drive well and he frequently kicks out of the traces. The other Aldermen are not averse to a general melee, and so now and again, the proceedings of the council are conducted by a terrible strife of words. The stones and mud fly around as wildly as thrown from galling guns instead of from the mouths of aldermen. All charge nobly and then there is a lull in the battle, the sun of peace shines out once more; the dead are buried, the wounds are bound up and the great council moves on and administers the affairs of the city with as much wisdom and dignified decorum as though it had never made a great fun for the boys.

LONSDALE.

(From Our Own Correspondent.)

Mr. Jas. Whiteman had a horse taken from his barn again on Wednesday night, 14th inst.; after much searching it was found at a neighboring barnyard about two miles west of here. Mr. Whiteman has been much annoyed by roughs taking horses from his stable at night, riding and leaving them a long distance from home; stopping in his barn over night to sober up, stealing poultry, etc. We hope the guilty parties will soon be caught and brought to justice.

Daniel Mabce caught a lad, ason of Jas. Beverstock, in his potato pit filling a bag a few days ago and his mother watching at the fence to help her son to carry the bag home. He says about fifteen bushels have been taken, and a short time before his sister caught the same lad with a nice piece of pork weighing about 125 pounds, which he had taken from his barrel. Mr. Mabce says all his fowls at one barn have been taken; as he cannot persuade them to stop stealing he thinks he will get Chief McKinno to take it in hand.

A golden wedding was held at Mr. Wm. McMurray's in the 3th con. of Tyendinaga a few days ago, the aged couple having been married 51 years. They have seven children living, two sons and five daughters, all having large families and all were present except one son. The sons-in-law are Thos. Kelly, Ervin Ray, John Robinson, David and Thomas Winters. A chairman was chosen after which a portion of Scripture was read and prayer by David Winters.

Appropriate speeches and each presented the aged parents with five dollars together with a quantity of provisions, etc., after having a very pleasant meeting and visit together they returned to their respective homes.

Considering the bad state of the roads leading to our village our Merchants and Mechanics have a lively time supplying the wants of the throng of customers continually pressing in.

We noticed on the premises of John O'Brien carriage maker on Saturday forenoon sixteen horses to be shod, a large number of farming implements to be repaired, and orders for wagons and other work were coming in until a late hour of the day.

Mr. Robert Winters tells us he made a pair of new light boots (he calls heels) did \$2.50 worth of repairing, walked to Kingsford, rented his land there and returned home on foot, having arrived on Saturday making five miles of walk. This is one instance of how our mechanics push business; who can beat it?

A Sunday School has just been started here in the Methodist Church with a good attendance, our miller, Mr. Howell, being superintendent, and the school teacher, J. T. Hopper, Secy.

The Sugar Social for the benefit of said school was well patronized, considering the late hour of the day. All enjoyed themselves immensely. Dr. Radner very ably filled the chair. The programme was lengthy each doing their part amply, forty pounds of sugar consumed and the best of satisfaction given financially.

Our quiet village was greatly annoyed on Sunday last by some men who are heads of families shooting and spearing fish at the bridge and attracting a crowd of young men and boys to witness the destruction of the day.

We do not mention names, but hope such immoral conduct and violation of the law, which should be punished, will not occur again.

LONSDALE.

(From an occasional Correspondent.)

On Tuesday last about mid-night, our village was awakened by the sound of the School bell, and all rushed from their beds to find that a fire had broken out in the school house, a fire which was soon extinguished by a marriage bell, intended to call a party together for a charivari which proved a mere fizzle, but perhaps, it put something in the hotel-keepers' till.

Mr. Asa Abbott and Miss Duff, cousin to Dr. Redner, both of Lonsdale, took a drive to Shannonville, it being a very pleasant afternoon; they obtained license and called on the Rev. Mr. Palmer, Methodist Minister, at the parsonage and were joined in wedlock, to travel in double harness through town like's journey.

Asa was fit the best of health when they returned, but the shock and driving over rails, etc., put in the road so affected him that he is still under the Doctor's care this Wednesday a. m. There is good hope of his recovery and we wish them a long, happy and prosperous life, and no troubles but little ones.

Mr. John E. Sexsmith is very low, and was considered dying on Tuesday, but revived again.

TYENDINAGA RESERVE.

(From Our Own Correspondent.)

The annual vestry meeting for the Methodist Church in this place was held on Monday, the 20th inst. (Easter Monday) at 11 o'clock a. m. From the Canon on vestry passed in the eighteenth session of the Diocese of Ontario. Learn who members of vestry in free churches such as those on the reserves. In churches in which all the people are free there shall be a vestry for the purpose of this canon mentioned and declared, and the members thereof shall be of the age of twenty-one years and upwards.

Such members shall declare himself in writing at the meeting, in a book to be registered for the purpose, to be a member of the Church of the Diocese of Ontario, and to be habitually attending public worship of the said church, of which the vestry is held for the space of six months previous to the meeting of the vestry.

churches for Easter Sunday.

Mr. Kahnonsahyong made a successful start on Monday for plunging and other work.

Weather has been favorable for many farmers who have already started to reap their spring grain. There has been considerable grain sown this week.

Mr. John O. Maracle is reported very ill. Chief S. Green has already built eighty rods of wire fence.

FOURTH CONCESSION TYENDINAGA.

(From Our Own Correspondent.)

Mr. Wm. Ward, of Melrose, has had an offer from his tavern stand; they seem to be in better demand and realize a better price than our vacant churches.

Mr. Thomas Jordan has purchased a fine residence in Melrose fronting on Main-st., centre of the village, formerly owned by Edward Hollingsworth, Esq.; it has a never failing spring of water in the cellar.

Our Melrose cheese factory will commence on Monday, May 3rd. Mr. James Kinney and Mr. Hiram Fairman are the cheese-makers; there is no discount on either of them.

The young man from Melrose that went to see his girl at Lonsdale says we must stop worrying about it, or he will marry her right.

The young men around Melrose seem to have a great fancy for shoemakers' daughters; I do not blame them for that, but if they think they will get their wives stood free after marriage, they will get disappointed badly, for I tried that and had to pay the old man for every patch.

Our Township Council met at the Town Hall, Melrose, on the last Tuesday of this month to transact business for the township, part of it will be the small-pox bill from the Indian Reserve; it will not take long discussing that part, as I understand it is very reasonable, he having only one patient to attend. It would be well for the county if all the doctors were as thoughtful.

They have ground eighteen hundred bags of grain at Trapp's mill, but he is getting very uneasy about dispossessing his customers next fall as he would like to go out this fall and winter.

Mr. Charlie Mowerson sent to Toronto for a new rifle, a Winchester; at that on the following morning he was out before the sun in order to try his rifle; forty rods from where he stood he saw a crow and shot both of its eyes out. Now, Mr. Editor, would not that man and rifle have been better in the Northwest than General Middleton's army? But he is too useful a man to part with, for instance:

He can reap and sow,
He can reap and mow;
He can make a clock and set her up,
And make her run so true.
He can fiddle well,
And make a cheese;
He is good at shooting deer.
He can grind a grist and take the toll.
He is a first class engineer.

Robert McConnell has purchased a new dog cart; it must have cost a great deal as there are a great many of that kind of trimming on it. His three hundred dollar team looks well before it.

The enervation and lassitude of spring time are indications of sluggish action, and the best remedy is carbonates accumulated by the use of heating food in winter. This condition may be remedied by the use of Ayer's Sarsaparilla, the best blood purifier known.

Colds, causing obstinate and dangerous diseases of the throat and lungs, may be relieved and cured by Ayer's Cherry Pectoral. Rev. W. W. Atwater, Rutland, Vt., writes: "My wife was attacked with a bronchial trouble, which we feared would prove fatal. As physicians failed to afford relief, we began giving your medicine. She is now in perfect health, and attributes her recovery to the use of

GOOD FRIDAY.

SERVICES were held to-day in St. Mark's Church at 10 A.M.

Sigs of Japan Tea for \$1.00 at The Big Store.

To-morrow is the anniversary of the battle of Fish Creek.

The Armenia broke her wheel at Trenton on Tuesday.

Work on the trestle dock structure is proceeding apace.

Mr. JAS. CAMERON has placed two tying posts in front of the Central Depot.

The venerable old Mrs. Frank Smith will sail to-morrow. She has been broken up for firewood.

The lighthouse first cast its gleaming rays across the waters of the bay on Saturday night.

COUNTERFEIT fifty cent pieces and two dollar Dominion notes are in circulation. Look out for them.

The McConnell farm on the Deseronto road was recently sold by auction at Napanee to Mr. Birrell for the sum of \$4,330.

The shingle department of the Cedar Mill was shut down on Wednesday owing to a break in the shaft.

A Service of Song will be held in the Church of the Redeemer next Sunday evening. All—especially non-churchgoers—are cordially invited to attend on the occasion.

The Presbyterian Sunday School repeated their concert on Tuesday evening, the children performing their parts in a manner reflecting much credit on their instructors.

Mr. Hugo B. Sherwood, Superintendent of the Napanee, Tamworth and Quebec Railroad was in town on Friday last on business in connection with the road.

Mr. A. Hoppins, agent of the Rathbun Company at Kingston, is building a model house in Kingston. The plastering will be laid on Mr. Hoppins' new style of bath, for the manufacture of which he has taken out a patent.

An excavation has been made and tracks are being laid down by which the refuse and other material from the mill and engine staff department of the Big Mill, can be removed by rail instead of by horses as heretofore.

John Erickson's hens are not to have everything their own way in the production of colorful eggs. A duck owned by Mr. Wm. Martin has earned for itself a place in our columns, and the following game, by laying an egg which measured 8 1/2 by 6 1/2 inches.

SEVERAL of our aquatic sportsmen are accustomed on Sunday to practice in their boats just off the town as they can run the risk of being arrested by the Chief, and as their conduct wounds the religious sensibilities of very many of our people, it were better for all concerned that this reprehensible practice should cease in future.

Mr. John McCullough was in Toronto on Tuesday attending the annual meeting of the Fire Insurance Association of which he is a member. Mr. McCullough was subsequently elected one of the Executive Committee. Mr. McCullough accompanied him to the city.

The Assizes will commence in Belleville on Monday next. The historic case of Rowe and others against the Napanee, Tamworth and Quebec Railroad is the last for the Assizes. Subpoenas and witness fees are flying about town in prodigious quantities so that the despatches in the money market has been quite relieved.

Messrs. Walmesley & Spafford are continually adding to their large stock of tea, coffee, and all kinds of groceries. On Tuesday, the steamer "Yale" arrived from Montreal with a large cargo for this firm, which can offer bargains not to be had elsewhere in Deseronto. One call will convince the most sceptical on that point.

Mr. A. E. Gracey, having accepted a responsible position in the establishment of Messrs. Wright & Boyle, of Oswego, sailed for that city in the *Roseleaf* last Tuesday evening. He is accompanied by Mr. D. H. Brewer who takes a place in the same ship.

In common with all our readers we regret the departure of two such worthy residents of our town.

About seventy volumes a week have been read, learned and invariably digested by the members of the Mechanics' Institute during the past three months. It is gratifying to know that the library has been so well appreciated and that a taste for reading has been generated which must greatly increase the intelligence of a community already considered to be too enterprising and wide-awake by people in other parts of the district.

Mr. Irvine Sterling, of Newburgh, was the victim of a very serious accident on Monday morning. He was working at the masher in the ash shop, when being ignorant of the fact that the knives below the table were in motion, he placed his hand directly on them. His hand was fearfully lacerated in consequence. Dr. Newton attended the injured man, and hopes that with great care he may yet render amputation of the hand unnecessary.

Chief Gunyon and Mrs. Betsey Brown had a difference of opinion on the streets on Monday last. For a time the battle raged with equal success, our Constable being stronger in muscular development but very inferior in oratorical powers. A protesting invitation to the cooler was at first positively refused by the lady who brandished a "Sally Gamp" in her hand, and in her eyes, but the chief became so pressing in his attentions that the fair one was fain to submit and the pair proceeded lovingly to the town hall where the fracas terminated without bloodshed.

The Assizes open at Belleville on the 26th inst.

The best tea in the market is found at Walmesley & Spafford's. Smith's brick block. Mr. S. North and family are returning to their old home in Picton.

It is predicted that the harbor will be sold in a few weeks at 12 cts. per pound.

OUR Manitoba correspondent again favors the readers of THE TRIBUNE with one of his drolly interesting letters.

Rev. D. O. Crossley will deliver one of his popular song-sermons on the evening of Sunday, May 2nd.

A large addition is being made to the list of books in the library of the Methodist Sunday School.

Craig Lodge, A. F. & A. M., will have their new lodge-room on the second flat of the Goodmury block. It will be both spacious and commodious.

The insipid church social will soon give place to the more enjoyable and with attendant ice-cream, roasted peanuts, and "music will be provided."

Mr. T. Butler commenced sewing barley on his farm in Richmond on Tuesday. Mr. Butler is probably the first in the district to commence seedling operations.

Be wise in time and purchase your tickets for the "moonlight sail," under the auspices of the Rathbun Company Band, on the evening of the Queen's birthday.

Mr. C. W. Palmer intends continuing his present agency business and will remove withal to-day to Toronto, which he makes his headquarters. All will regret the loss of such estimable citizens.

The merchants who erect awnings over their shop fronts are much annoyed by the presence of a number of loafers who are wont to shelter themselves in these cool retreats and thus prove themselves an unutterable nuisance.

THERE is a young lady in this city, who thinks herself just awfully pretty, and knows lots of songs and could sing 'em; but she can't read, and would not know her clothes, nor help her old mother to wring 'em.

John McCullough, Esq., Assessor for Deseronto, is at present busy making up his roll for the current year. The duties of his office involve a small amount of labor and care, each year finding some additional statistics to be collected and recorded.

The Grand Trunk authorities have agreed to lower the rate of freights between Kingston and points as far east as Cornwall and as far west as Oshawa. This will be a great benefit to the wholesale merchants of Kingston.

Mr. James Booth, contractor, thought delayed for a day or two on account of want of time, is making splendidly rapid progress with the new Goodmury block. The new structure will be a credit to the town as well as to the enterprise of the owner.

Part of the covering of the large tank on Centre-street, near Mr. Barnard's residence, gave way last Saturday leaving a chasm about eight feet square. The corporation have had it repaired and the structure strengthened, so as to improve it as a reservoir in case of fires.

The monster show of Easter meats at Carter's stalls will attract an immense rush of visitors to-day and to-morrow. No one has such a display of beef been made in Deseronto, and people are showing their respect for Mr. Carter's enterprise by leaving no stone unturned to do full to call the evening to inspect the exhibition—you will be well rewarded for your trouble.

At a meeting of the Deseronto Cricket Club-street, it was decided to lease a field in the west end of the town and proceed at once to lay out a crease. The prospects are that the club will be much more successful than in previous years when it was itself a reputation by the wonderful strides it made in working its way to the front among district clubs.

Citizens are busy every evening raking up and burning rubbish preparatory to commencing garden operations which promise to be even on a more general scale than of late years. All our cottages are being decorated with flowers, and it is evident that Deseronto will keep up the good name for tidiness and neatness which it so deservedly earned by its praiseworthy efforts last year.

Something like a sensation was caused in town last Saturday by the appearance in the *Morning News* of what purported to be the farewell address of Sir John Macdonald on his retirement from the world of politics.

It turned out to be George Washington's farewell address, slightly altered, and dated from Ottawa, April 16th. People breathed freely on Monday when it was found that Sir John still stood at the helm of state.

For 25 cts the *Weekly Globe* will be sent to any address in Canada, Great Britain or the United States for three months. For \$1.25 the *Evening Globe* will be sent for three months, and the *Weekly* for the balance of the year. For \$2.25 the *Daily Globe* will be sent for three months, and in addition the *Weekly* for the balance of the year. Subscriptions received at THE TRIBUNE office.

The directors of the West Hastings Agricultural Society are moving with commendable energy to get up a first class fair at Belleville this year. Belleville will aid the Society with a generous grant and it is thought that in future the fair will continue for four days. It is probable that the East Hastings Society will in a year or two join the West. This would be very desirable.

One good country fair at Belleville would be a great improvement on the present state of affairs. Belleville should not be contented with its fair.

A new departure was added to the shipyard during the past winter, viz, the manufacture of railway cars. Besides building a number of flat cars, Mr. Evans has repaired several passenger cars, and is now building a smoking and express car for the N. T. & Q. Railway. It is now well advanced towards completion and experts pronounce the workmanship in every respect superior both in strength and finish. A passenger coach will be next up in the works, and the building cars will then become one of the industries of Deseronto, and give additional employment to many workmen. Mr. Evans intends proceeding with the erection of a car shop which will be 85 feet long and 36 feet wide. There will be two tracks one for framing, &c., and the other for painting, &c.

The Telegrams on Thursday, May 6th. Eagle Mill at Rosemore will commence sawing next Monday.

The License Commissioners released to grant shop licenses for Deseronto.

Full size lace curtains to be had at The Big Store from \$1.00 a pair.

About two hundred daily papers are now read each day by residents of Deseronto.

Straw hats are in full bloom. Fraser of Smith's block sells them for a mere song.

See the new gingham opened out this day at The Big Store only 10 cts a yard.

The Judge was the guest of Mrs. Bedford when in Deseronto last Wednesday to hold Court.

This famous Telegramm Family will appear for the first time in Deseronto on Thursday May 6th.

Messrs. Sills, Stoddard, Williams and other victims of late accidents continue to improve steadily.

Rake up the old sticks and other rubbish which disgrace the street just opposite your residences.

THE TRIBUNE will be sent to any address for the balance of the year for 60 cts., paid strictly in advance.

Magnificent summer weather during the past week. On Wednesday the thermometer indicated 75.5 in the shade.

Buy your tickets at once for the Telegramm Family Concert on May 6th. Tickets 25 cts; Reserved seats 40 cts, double 75 cts.

THERE was a good market on Tuesday. The price of butter, eggs and other produce has fallen with the improved condition of the roads.

Mr. I. H. 'Walker' has secured the contract for supplying the Deseronto Navigation Company steamers with bread during the present season.

The factory awaits orders to proceed to Trenton where she will continue her peculiar duties under the command of Admiral Callaghan.

Belleville has been painted and otherwise touched up. Her officers are John Flynn, Capt. J. A. Thompson, 1st officer, and George Boyd, engineer. She will ply on the route to-morrow.

Now is the time to buy your Lace Curtains and The Big Store is showing the largest and best assortment ever brought into this locality.

Messrs. Nichol and Henry, of the Toronto *Globe*, spent a few days in town during the past week looking for local material. They report themselves well pleased with the town and with their success.

The Deseronto News Company have been appointed agents for the *Scientific American*, a journal which is now indispensable to every mechanic. Save money by leaving your orders at THE TRIBUNE office.

There was a very large attendance at the Church on the evening of last Sunday morning. Large numbers from town, now that the roads are getting dry, make their way to the Mohawk church to attend the services.

Rev. J. F. Fraser, who has during the past year been in charge of the Church of England congregation at Shannonville, has resigned that charge to accept the parish of Chrysler to which he has been appointed by his Lordship, the Bishop of Ontario.

Mr. James Butler has been making several improvements on his hair dressing studio. He has given it some general repairs, put a fine new window, and painted the whole premises. He has now an elegant parlor which will attract even a larger number of customers than before.

Hams, Bacon, Lard, Boneless Pig Pork, &c., at The Big Store.

There is considerable stir in aquatic circles over a bet of a novel character between Messrs. Marshall Woodcock and Thos. Mallory. The former wagers that he can stand up the famous "Tug" 32 feet high, and across the bay. If he wins he will have accomplished a difficult feat.

A number of boys and young men are wont to assemble in the square in the vicinity of St. Mark's Church and by their noisy unseemly conduct greatly annoy the large congregation of worshippers. Last Sunday evening their conduct was especially objectionable. It is to be hoped the offenders will take warning before stern remedies are inflicted.

The steam barge *Nile* was also up on the marine railway last winter. She has been practically rebuilt having received new frames, covering boards, rails, ceilings, &c. She was launched on Wednesday and with her consort the barges *Isla* and *Bedford* which have been overhauled will soon be in commission. She will be again commanded by Capt. W. J. Daly.

The Minister of Customs has kindly given leave of absence for two months to T. G. Pile, Esq., Collector at this port. There are the first holidays Mr. Pile has ever taken since his entrance on the position. We hope he will enjoy his well earned vacation and return to his duties in good improved health.

T. H. Nasmith, Esq., has been appointed by the Department to act as collector during Mr. Pile's absence.

The public will receive with genuine gratification the announcement that the Directors of the Mechanics' Institute have made arrangements for a Grand Concert to be given by the famous Telegramm Family in the Presbyterian Sunday School room on Thursday May 6th. The singing of this gifted company everywhere gives the greatest satisfaction and the people of Deseronto will show their appreciation by giving their best patronage.

The *Hero* arrived in port on Tuesday all bright and gay with colours flying. She had encountered some ice which had scraped off some paint. She is again under command of that popular officer, Capt. Nicholson, a sufficient guarantee that nothing will be left undone to promote the comfort of passengers and maintain the reputation of the *Hero* as the most popular passenger steamer of the Bay of Quinte.

FRIDAY, APRIL 30, 1886.

MARYSVILLE.

From Our Own Correspondent.
 Mr. R. J. Peery and wife, of Napanee, spent last Sunday in our village the guests of Mr. Bellamy. Robert reports a fast horse. Mr. A. G. Allison, Kingston, spent Sunday with his father, B. J. Allison, Esq. Mr. Geo. Anderson went to Napanee on business on Monday. Rev. Father Mackay went to Belleville on Wednesday.
 Frank Brimacombe and his sister Carrie left for their home on Tuesday, having been stopping here with their sister Mrs. Stapleton since November last.
 Farmers in this vicinity are getting settled down to their spring work and keep our industries blacksmith Mr. Ryan busy repairing agricultural implements.

CONSECON.

From Our Own Correspondent.
 Mr. D. Lane, of Trenton, has opened a branch seven cent store in the new Taylor block; his stock is very fine and well selected, he has already a flourishing trade.
 Navigation has been open here some time, but no vessel has arrived except fishing boats.
 The Rev. Mr. Buchanan, of Trenton, preached two eloquent and interesting sermons in the Methodist Church last Sunday, while Mr. Pickett, our pastor, filled his place at Trenton.
 I regret to announce the death of Mr. J. Locklin, which occurred Monday morning; he was stricken with three paralytic strokes a week or two since, and hopes were entertained of his recovery, but a fresh attack carried him away.
 Mrs. J. Devlin and Mr. R. Robinson, of Belleville, are the guests of Mr. J. Robinson.
 Mr. Porter, who has been confined to his bed with a bad attack of his old enemy, rheumatism, is now convalescent.
 Miss Lena Thornton, daughter of T. H. Thornton, M. D., has been ill with scarlet fever, but is much better.
 Two of our young women met, while on the "war path," one evening since, probably feeling the pangs of hunger, relieved Mr. Orser's hen-roost of a couple of fowls. Knowing of the absence of a gentleman and family, they repaired to his house and made themselves "at home," first, however, forcing their way in; finding no wood in the house they proceeded to demolish the chairs for firewood. After their "stew down" the house presented a woful appearance. The matter will likely cost them dearly.

MELROSE.

From Our Own Correspondent.
 People are very busy with their sowing; some are about half done, and it is said that Stanley Morden has finished.
 Mr. John Vanner's new stone house is all finished off excepting the stair way.
 Mr. Wm. Jeffery is said to get out of bed without assistance, it is not known whether he will be a cripple or not.
 The "Literary Society" is still in good working order. There is to be no meeting next Friday evening as it is such a busy time. At our last meeting the debate was "Resolved that we cannot have misery without temperance." Mr. Samuel Osborne made a remarkably fine speech on the side of temperance. It would pay the Scott Act against the time they try to pass the Act to hire him to stump the county. Mr. Charles Anderson as usual made a very telling speech on the side of war. Those who talked for temperance were declared winners. The only disagreeable thing said about the society yet, is that there are few of the girls that always sit next to the partition in the seats in the centre row so that they can talk to the boys on the other side of the partition.
 People in this vicinity are greatly disappointed over their Fourth Concession Post. They had been flattering themselves that they had a rising post in their midst who was destined to immortalize himself by writing poetry; but his last communication has dispelled the illusion. They regret much that a man who will connect so good a sentiment as the desire to get cheap clothing done with matrimony and love, need never aspire to anything more than mere doggerel rhyme, as is incapable of soaring to any heights of poetic fancy.
 The reformers held a political meeting on the 16th for some purpose; one thing that has come to light is, that they intend to hold a picnic sometime this summer somewhere, as some of their party have tickets for sale.
 The rain will be apt to put the sowing back for a short time.

LONSDALE.

From Our Own Correspondent.
 There seems to be a calm after the excitement over the wedding and Charivari last week. The farmers are improving the time, many are about done sowing.
 We noticed an error in the name of the wagon-maker referred to last week which should be John Bruin, and also the name of the bride which should have been Miss Doltie.
 We are waiting expecting to chronicle a wedding soon, as your 4th con. correspondent tells us the young man from Melrose says that if we don't quit writing about it he will marry her right off, and still be come and we know it.
 Our shoemaker thinks all shoemakers are not so hard on non-layers, as your correspondent was, at least he would not charge for every patch.
 Mr. Sandy Winters, of Tamworth, made his father a short visit, stopping over night on Monday. He took his sister home with him to introduce her newly arrived nephew, his young son.
 We notice our new merchant, Mr. Corran, is still plying in the goods in the store and making it more attractive; he seems determined to have the display equal to the towns and cities, give him a call.
 We are now having a cold easterly rain, keeping all closed, hoping to save calling the doctor.
 The following lines have been handed me to forward for publication:
 The queen of night wears and pale,
 Shone over the spires fair Lonsdale.
 The waters deep of Salmon River,
 With silver moonbeams flash and quiver.

The hour of ten, the clocks had tolled,
 Two buggies through the village rolled,
 Hymen his glowing torch had lighted,
 Lad and maid their troth had lighted;
 Ah! but do little here below
 And other folk with envy glow.
 Full soon there burst upon my ear,
 The gun's report, the deafening cheer,
 The hoarse bell clang from iron throat,
 To join the cowbell's mellow note.
 Up rose the fiddler's scribbling sage,
 White with years, not black with rage,
 Rushed to the school and cried, Oh, stop her,
 Who rings the bell? Where is Hopper?
 Quack, quack, was all the sound he heard,
 As through the window flew the bird.
 Another less lucky bird was caught,
 And to the light his features brought.
 They pulled his whiskers from his face,
 Oh! what a fall from preening grace,
 Beneath designs they did discover,
 The sainted, but discarded lover.
 The ladies who looked on, thinking of fire,
 The dispensing man of dose and pill,
 From his white mane on the hill,
 Surveyed the scene, and smiling said:
 Wise farmers should not leave their head,
 The longest night comes to an end,
 So does this story I have penned;
 Long may we live in mirth and glee,
 And soon hall again a charivari.

 Mr. James McAuley has purchased the west half of lot 34 south range 3rd concession, containing 50 acres, from Mr. Patrick Meagher. Price \$1,800.
 Last Sunday being Easter Day there was an immense congregation at St. Charles Church. The singing of the choir was most excellent, reflecting credit on all concerned. The choir has been making most satisfactory progress under their new organist, Mrs. Fairman, who spares neither time nor trouble to advance the pupils. Her efforts are duly appreciated, and it is no exaggeration to say that the choir will compare favorably with many of our town choirs.
 The regular meeting of the Council took place on Tuesday at the Town Hall, Melrose. There was a meeting of the Board of Health at the same time and place. The reports have not reached us at the time of writing.
 The chairman of the County Bridge Committee and Mr. Francis, the County Surveyor, or, we are informed, visited Lonsdale Bridge last week, and made the inspection which has been the subject of complaint. The defects in the bridge are to be at once remedied and the roadway put in a proper condition.
 Spring work is now in full swing. A good deal of sowing was done last week, but this week will see a large amount of sowing done.
 The weather which was very warm for some days turned suddenly very cold on Saturday morning last, and for a day or two looked as if old Boreas was going to hold sway again. We had heavy rain on Tuesday and it promises to be favorable for spring work. It is to be hoped now that we may have no more furies of snow or heavy frosts, as frosts now would prove disastrous to fruit of all kinds, especially after the fine warm weather we have had.

Mr. Edward McCormick is now living on Mr. Macdonald's farm, lot 22 north range 6th con.
 Mr. Charles Bennett is now working the old Nain farm, lot 19, 6th con., now owned by Mr. C. C. Hauley.
 The Albert and Naphin Cheese Factories open on the 10th May.

We regret to learn that the Mowbrays are leaving the country. The members are now so scattered that they will no longer be able to pursue their ornithological researches. The Mowbrays where are they? The President is gone away, and so is their Engineer.
 Don Carlos my boy you seem
 To inspire verse and prose,
 And to be the pleasing theme,
 Of writers from Melrose.

But quickly comes the storm's frown
 And falls the winters rain;
 Be sure you move ere sun goes down,
 If you would save the grain.

Thrice welcome you will be found,
 With loving heart and lip;
 But before you return to read,
 Don't take too long a trip.

TYNDINGDALE RESERVE.

From Our Own Correspondent.
 Miss Lydia Hill is this week's visiting friends in Deseronto.
 Mr. Peter Hill has taken charge of Chief S. Green's farm; who will manage the farm for the Chief, and it is rumored that the Chief will soon sail for England to renew acquaintances.
 Many of the white tenants are removing from the Reserve, owing to failure in payment of rents.
 Mr. William Claus says that he is going to build a new residence on his farm this summer; this will make a great improvement to Mr. Claus's farm.
 Miss Susan M. Marsdale is this week the guest of her sister, Mrs. Dow Claus, near Shannonville.
 Mr. Isaac Green has purchased a span of horses and intends to run his own farm. Good on your head Jesse, this is the way we like to see our young men take advantage of the Reserve.
 The churches were unusually largely attended on Sunday; there were over three hundred at St. Charles Church in the morning and also to receive the Holy Communion, the largest congregation for some time. All Saints Church was also well attended.
 VESTRY MEETING.
 The annual Vestry Meeting was held in St. Charles Church, Melrose Reserve, on Easter Monday morning. The incumbent took the chair at 11 o'clock a.m., and immediately called on those present to record their names in the book which had been provided for the purpose; when 23 declared that they were members of the Church of England and confessed their faith in no other religious body. Walter A. Brant was then appointed vestry clerk, after the audit committee had reviewed the accounts and the finances were found in a satisfactory condition. At the time the present Incumbent had taken charge of the parish, and accounts passed. The Incumbent, Mr. Alex. Left, who had been discharged the duty for several years under

his predecessor, Clergyman's Warden for Christ Church, and the Vestry elected Mr. Jacob B. Brant for People's Warden.

In All Saints Church Mr. Thos. Clause was chosen by the clergyman as his warden and Mr. Isaac W. Green was the choice of the people. No lay delegate having been appointed for 1885, there were two vacancies which were filled by the election of Mr. John A. Left for three years and Chief Amosothak for the term of two years.

After much business had been transacted, including the appointment of a committee to bring the subject of necessary repairs to the Parsonage before the Council of the Band, the following resolution was moved by ex-Chief Thos. Clause, seconded by Church Warden Alex. Left, and carried unanimously:—"That whereas this Vestry has never before put on record its appreciation of Chief Amosothak's services to the Band in collecting funds in a secluded part of our Reserve, and in connection with him for a sufficient sum to maintain a teacher; be it therefore resolved, that a vote of thanks be now tendered him for what he has done for his people."

It was subsequently moved by Lay Delegate John P. Left, seconded by C. W. Isaac W. Green, and carried unanimously:—"That since our Parish Church is in a dilapidated condition, and the funds of the Band are not in a position to repair it, be it therefore resolved, that Chief Amosothak be requested to proceed to England at as early a date as possible, to solicit subscriptions towards the accomplishment of this desirable object."

The usual vote of thanks [were passed to the officers of the church, and the vestry meeting of 1886, A.D., adjourned at 2:30 o'clock p. m. The Incumbent pronounced the Benediction, and all returned to their homes well pleased with the harmony which characterized the proceedings.

The great Northern Cree Chief, Big Bear and three of his head men, all of whom have been pining under the restraints of Penitentiary life at Stony Mountain, Manitoba, for nearly one year, for their acts in connection with the Red rebellion, have been set at liberty and ordered back to their reserve.

An attempt was made to interview Big Bear, but the crestfallen old Indian refused to talk. He looks very much reduced, and shows the results of his imprisonment so clearly that all who have seen him consider that his health is irreversibly broken. He is very thin in flesh, bent in form, was in face, and rickety in motion.

During a thunderstorm near Oneness last Monday, the lightning struck the chimney, and running down the stove-pipe, kindled the fire in the kitchen stove, which a Mr. Gorman was about to start, besides shocking him severely. The kindling of the fire by the obliging lightning did not compensate for the severity of the shock.

At a largely attended meeting of the Belleville Board of Trade held last week it was resolved to petition the government to grant a charter for the erection of a bridge across the Bay of Quinte at Belleville. This action is commendable and there should be little difficulty in securing the necessary permission from the Dominion parliament.

Belleville should have had a bridge forty years ago. Other municipalities will be asked to unite in petitioning the government for the privilege and we feel certain that the corporation of Deseronto will gladly do what they can to assist Belleville in this enterprise.

The doctors now wear glowing countenances having received their vaccine fees.
Egar is showing something particularly good in wall papers.
A FINE lot of cheap and popular books at THE TRIBUNE office.
Father, do buy me a new dress at Fraser's dress goods store in Smith's Block.
Mr. James Cameron is enclosing the plot in front of the Opera House by a neat fence. There is a great rush at Egar's for reserve seats for the Telgmann Concert next Thursday evening.
THE "Gipsy" will be allowed to carry 300 passengers this year, a greater number than last season.
THE TRIBUNE will be sent to any address for the balance of the year for 60 cts., paid strictly in advance.
DALTON is doing a large business in carpets and linoleum. He can furnish anything in those lines.
Cannot something be done to remove those unsightly pools of water and mud in front of the Post office?
An example will be made of some boys and men who are in the habit of tearing down bills and posters.
THE stmr. Deseronto is again running between Ganouque and Clayton. The officers this year are:—Wm. Skillen, captain; John Laahy, mate; John Rice, engineer.
Mr. Fraser has added a Millinery department to his store in Smith's Block. The ladies will find it to their advantage to call and inspect before purchasing elsewhere.
A Belleville man, who had been stopping at a Toronto hotel, was caught in the act of lowering his value from his bedroom window to the street.
Mr. Hopkins carefully examined all the trees which he transplanted last year and considers that all are healthy and likely to flourish.
Mr. Geo. Field has a hen of a mixed Black Spanish and Brahma variety, which has been the record by laying an egg measuring 8x7 inches. He finds one dozen eggs of this variety of fowl average 1 1/2 lbs.
MRS. DALTON directs attention to her splendid stock of Millinery at the Tribune. She confidently claims the patronage of all classes feeling her ability to suit all. New goods arrive daily and never has she had so many customers as this season.
THERE was a large attendance at St. Mark's Church on Easter Sunday. The altar and font were neatly decorated with flowers on the occasion. Rev. Mr. Harding, of Napanee, assisted the Rector in the services, preaching the sermon.
On Wednesday morning the train going out to meet the Grand Trunk mixed ran off the track at the complicated switches near the Central station. With the assistance of the Mohawk and mule team she was soon got on again.
Alex. McGaughey, Esq., has been appointed deputy lawyer of marriage licenses during Mr. Pike's absence. Now is the time for young men to avail themselves of a chance to get cheap licenses, as the deputy is inclined to offer liberal discounts on cash purchases.
Quantity in medicine is no indication of value. Ayer's Sarsaparilla is concentrated and powerful; requires a smaller dose, and is more effective, dose for dose, than any other Sarsaparilla. It is the best of all blood medicines.
WALMSLEY & SPAFFORD found last Monday the busiest day they have had since they came to Deseronto. They have received a large supply of new stock and are offering tea, coffee, sugar, and provisions at prices which cannot be equalled in Deseronto.
A number of Deseronto men and boys went out having a good time before their eyes, occupied the greater part of last Sunday by shooting musk-rat from the bridge over the Crooked Creek. As the penalty on conviction is heavy, and half the fine goes to the complainant, it might be to the interest of our worthy Chief of Police to extend his rambles in that direction next Sabbath.
Active preparations are in progress for the erection of Mr. F. S. Rathbun's new residence. Mr. Hopkins, landscape architect of Oswego, has laid off the grounds for walks and drives, made arrangements for thorough drainage. A handsome stone wall and ornate fence will be erected on the front of the lot facing Dundas street. The new structure will be an ornament to that part of the town.
THE case of County Treasurer Wills against the Belleville Ontario was tried at the present session in Belleville before Chief Justice Cameron. The defendant, who had charged Wills with irregularities in connection with the sale of lands, and the Treasurer sued for \$10,000 damages. The Judge, of course, charged against the newspaper man, but the jury found a verdict for plaintiff but refused damages.
Stream driving operations are progressing rapidly. The Salmon River has been higher than at any time during the past twenty years. Mr. James Scanlin is driving last year's logs in First Lake. Drifted logs are on steadily in Crooked Creek in Olden, and Beaver Creek in Kennebec. Both of these streams flow into Crooked Lake from which the Salmon River flows. Crooked Lake is ten miles in length. M. Maloney is superintending a drive starting from Fifth lake at the head of the Napanee River.
Mr. Johnston, Inspector of Schools for South Hastings, has issued a circular calling on teachers, school boards and scholars, to observe Arbor Day, May 7th. He states that in many localities in South Hastings Arbor Day was turned to advantage last year; but in some cases no real desire was manifested by teachers or pupils to do anything. For the good name of the county he urges teachers and all classes to make Arbor Day of 1886 a memorable day. We feel confident that South Hastings will give a loyal response to the Inspector's appeal. Deseronto and Tyndalms will not be behind in this matter.

The St. Act comes in force in Lennox and Addington to-morrow.
The mosquito has already put in an appearance.
Subscriptions to the Daily and Weekly Mail received at THE TRIBUNE office.
THE Round House at Deseronto Junction is being gaily decorated with a coat of paint which will largely to its appearance.

WORK has been again resumed in Central Park. A boulevard is to be made on the south side along Main-street. A fence will be erected on the north side to separate it from market square. The park promises to be a most attractive spot this summer.
TALK of the great strikes which are everywhere prevalent in the United States! There were more strikes last Sunday in the west end of this village by the numerous baseball clubs than have occurred on this continent during the past six months.
THE Resolute cleared from port on Wednesday morning at 7:45 o'clock, arrived at Oswego, discharged her cargo of 330,000 ft. of lumber and was in Deseronto at 5:45 on Thursday morning. That beats the record, and Captain Genge is confident that he can yet reduce the time for the round trip.
Canada is in every respect a greater country than the United States. It only requires a plain citizen to govern the country of nearly sixty millions. On the other hand a governor-general with a cabinet of fourteen members are required to govern the Dominion with a population of nearly five millions.
THE advertisement of the Misses Wartman should be carefully read this week by the members of the Deseronto community. It is unique, all their stock having been very carefully selected. A large addition of new goods has been made. Persons illustrating their taste in inspection feeling it a pleasure to show goods and let prices be known.
Walmsley and Spafford are now showing something new, viz.: their "Perfection Can" Japan Tea. They send their own cans to Japan where they are filled by their own agent, thus ensuring perfect purity. There is a handsome picture illustrating the method in their store in Smith's Block. There teas are pronounced by old ladies and other eminent judges as the best ever brought into Deseronto.
It is an act passed by the Ontario Government in the year 1884, all pigs must be moved outside of the corporation or kept at least 70 feet away from any house, dwelling, or street. Even if the fine goes to the way from the prohibited places, the pens must have sloping floors and must be cleaned at least once every day. Persons illustrating should paste this on their hog pen and obey it.
Very few articles of domestic requirement have been the subject of so much inventive thought as Sewing Machines, but out of the multiplicity of these contrivances only a limited number possess the intrinsic merit necessary for the attainment of permanent popularity. It therefore gives us pleasure to call our reader's attention to the light running "New Home" which very nearly if not quite approaches perfection for durability and general efficiency and is the embodiment of mechanical workmanship of the highest order being the lightest running and most complete machine in the market all of which will be fully demonstrated to those who wish to investigate. The Big Store has secured the Agency for the sale of the New Home and will furnish them at as low a price as inferior machines are being sold at.
